## Shadowhawk S9322

# Shadowhawk XHP70.2 LED Flashlight S9322 User Manual

Model: S9322

### 1. Introduction

This manual provides detailed instructions for the Shadowhawk XHP70.2 LED Flashlight S9322. Please read this manual thoroughly before using the product to ensure proper operation and to maximize its lifespan. This flashlight is designed for various applications including camping, hiking, emergencies, and general household use.

## 2. Package Contents

Upon opening the package, verify that all the following items are included:

- 1 x Shadowhawk S9322 USB Flashlight
- 1 x Rechargeable Lithium-ion Battery
- 1 x USB-C Charging Cable
- 1 x Lanyard
- 1 x Operating Instructions Manual (this document)

Image 2.1: Visual representation of the items included in the Shadowhawk S9322 product package.

## 3. Product Overview

Familiarize yourself with the different parts of your Shadowhawk S9322 flashlight:

Image 3.1: An exploded view illustrating the internal and external components of the Shadowhawk S9322 flashlight, including the XHP70.2 lamp beads, high transmission lens, power switch, indicator light, rechargeable battery, non-slip texture, rear cover, safety hammer, and lanyard.

1. **Safety Hammer / Attack Head:** Located at the front bezel.
2. **High Transmission Lens:** Focuses the light beam.
3. **XHP70.2 Lamp Beads:** The high-performance LED light source.

4. **Power Switch:** Controls power and light modes.
5. **Indicator Light:** Displays charging status and battery level.
6. **Non-Slip Texture:** Provides a secure grip.
7. **Rechargeable Battery:** Powers the flashlight.
8. **Rear Cover:** Secures the battery compartment.
9. **Lanyard:** For secure carrying.

## 4. Key Features

- **High Brightness LED:** Equipped with an advanced XHP70.2 LED chip, providing up to 500,000 lumens of stable and bright illumination. It can light up a 120-square meter room and has a maximum beam distance of up to 1000 meters.

Image 4.1: Detailed view of the XHP70.2 LED chip, highlighting its advanced design for superior brightness.

Image 4.2: The flashlight demonstrating its extensive beam range and wide area illumination in a dark outdoor setting.

- **5 Light Modes & Adjustable Focus:** Features five distinct lighting modes: High, Medium, Low, Strobe, and SOS. The adjustable focus allows for seamless transition between a wide floodlight and a narrow spotlight beam.

Image 4.3: Visual comparison showing the flashlight's ability to switch between a focused spotlight and a broad floodlight beam.

- **Enhanced Switch Design:** The power switch requires a 3-second press and hold to activate or deactivate the flashlight. This design prevents accidental activation, conserving battery life.
- **Powerful Rechargeable Battery:** Utilizes a high-capacity rechargeable Lithium-ion battery, offering extended runtime. The battery's discharge energy is 50% higher than standard batteries, ensuring long-lasting performance, up to 10 hours.

Image 4.4: Illustration comparing the higher discharge energy of the included 21700-type battery against a standard 18650 battery.

Image 4.5: A graphic indicating the flashlight's extended operational time of up to 10 hours on a single charge.

- **IP67 Waterproof & Durable Construction:** Constructed from high-quality aviation aluminum alloy with a specially oxidized surface coating for wear resistance. It is IP67 rated, meaning it is protected against dust and can withstand temporary immersion in water. The flashlight is designed to endure harsh conditions, including drops from 10 feet, freezing temperatures, and being run over by a vehicle. The robust aluminum attack head also protects the convex lens.

Image 4.6: Demonstrations of the flashlight's IP67 waterproof rating and its resistance to physical stress, such as being driven

over.

## 5. Setup

1. **Initial Charge:** Before first use, fully charge the included Lithium-ion battery. Refer to Section 7 for charging instructions.
2. **Battery Installation:** Unscrew the rear cover of the flashlight. Insert the rechargeable battery with the positive (+) end facing towards the flashlight head. Screw the rear cover back on securely.
3. **Attach Lanyard:** If desired, attach the lanyard to the designated loop on the rear cover for convenient carrying.

## 6. Operating Instructions

### 6.1 Power On/Off

To prevent accidental activation, the flashlight features an improved switch design:

- **To Turn On:** Press and hold the power switch for approximately 3 seconds.
- **To Turn Off:** Press and hold the power switch for approximately 3 seconds.

Image 6.1: Demonstrating the 3-second press required to activate or deactivate the flashlight.

### 6.2 Changing Light Modes

Once the flashlight is on, short-press the power switch to cycle through the five available light modes:

1. High Brightness
2. Medium Brightness
3. Low Brightness
4. Strobe (Flashing)
5. SOS (Morse Code Signal)

### 6.3 Adjusting Focus (Zoom)

To adjust the beam focus, gently slide the head of the flashlight forward or backward:

- Slide the head forward for a narrow, focused spotlight beam.

- Slide the head backward for a wide, diffused floodlight beam.

Image 6.2: Illustrates the zoomable head for adjusting beam focus and icons representing the five light modes.

## 7. Charging and Power Bank Function

### 7.1 Charging the Flashlight

The Shadowhawk S9322 features a built-in USB-C charging port:

1. Locate the USB-C port on the side of the flashlight (usually protected by a rubber cover).
2. Open the rubber cover.
3. Connect the provided USB-C cable to the flashlight's port and the other end to a USB power source (e.g., wall adapter, computer, power bank).
4. The indicator light on the switch will turn**red** during charging.
5. Once fully charged, the indicator light will turn**green**.

Image 7.1: Illustrates the Type-C charging port and the red/green indicator lights for charging status.

## 7.2 Using as a Power Bank (USB Output)

The flashlight can also function as a power bank to charge other devices in emergencies:

1. Locate the standard USB-A output port next to the USB-C input port.
2. Connect your device's charging cable to the flashlight's USB-A output port.
3. The flashlight will begin charging your connected device.

Image 7.2: The flashlight demonstrating its power bank capability by charging a smartphone.

Image 7.3: A close-up view of the flashlight's USB-C input and USB-A output ports, along with its physical dimensions.

## 8. Maintenance

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Lubrication:** Periodically apply silicone grease to the O-rings and screw threads to maintain water resistance and smooth operation.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight. If storing for extended periods, remove the battery or charge it every 3-6 months to prevent deep discharge.
- **Battery Care:** Avoid over-discharging the battery. Charge it promptly when the indicator turns red.

## 9. Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Flashlight does not turn on. | Battery is depleted. | Charge the battery fully. |
| | Battery inserted incorrectly. | Ensure the positive (+) end of the battery faces the flashlight head. |
| | Switch not pressed for 3 seconds. | Press and hold the power switch for 3 seconds to turn on. |
| Flashlight does not charge. | Charging cable or adapter faulty. | Try a different USB-C cable and power adapter. |
| | Charging port obstructed. | Ensure the USB-C port is clean and free of debris. |
| Light output is dim. | Battery is low. | Recharge the battery. |
| | Lens is dirty. | Clean the lens with a soft cloth. |

## 10. Specifications

| Feature | Detail |
|---|---|
| Brand | Shadowhawk |
| Model Number | S9322 |
| LED Type | XHP70.2 |
| Luminosity | 500,000 Lumens |
| Beam Distance | Up to 1000 meters |
| Light Modes | High, Medium, Low, Strobe, SOS (5 modes) |
| Focus | Zoomable (Spotlight to Floodlight) |
| Battery Type | Rechargeable Lithium-ion (1 included) |
| Charging Port | USB Type-C |
| Output Port | USB-A (Power Bank Function) |
| Waterproof Rating | IP67 |
| Material | Aviation Aluminum Alloy |
| Dimensions (L x W x H) | 21.5 x 9 x 4.5 cm |

| Feature | Detail |
|---|---|
| Weight | 270 grams |
| Voltage | 3.7 Volts |
| Average Lifespan | 50,000 Hours |

## 11. Safety Information

- Do not shine the flashlight directly into eyes. The high intensity light can cause temporary vision impairment or permanent damage.
- Keep out of reach of children.
- Do not disassemble the flashlight head or modify the LED. This can damage the device and void the warranty.
- Use only the specified rechargeable battery.
- Avoid exposing the flashlight to extreme temperatures or open flames.
- Ensure the charging port cover is securely closed when not charging to maintain water resistance.

## 12. Warranty and Support

Shadowhawk offers 7*24-hour customer service. If you have any questions, concerns, or require assistance with your Shadowhawk S9322 LED Flashlight, please do not hesitate to contact our customer support team. Refer to your purchase documentation or the Shadowhawk official website for contact details.
