

Tractive TRNJADB

Tractive GPS Dog Tracker Instruction Manual

MODEL: TRNJADB

1. Introduction

The Tractive GPS Dog Tracker (Model TRNJADB) is designed to help you monitor your dog's location and well-being. This device offers real-time GPS tracking, virtual fence capabilities, and comprehensive health and activity monitoring. It is lightweight, waterproof, and attaches securely to most dog collars.

2. What's in the Box

- Tractive GPS Tracker (Model TRNJADB)
- Charging Cable
- Rubber Attachment Clips

3. Setup

3.1 Charging the Device

Before first use, fully charge your Tractive GPS tracker. Connect the provided charging cable to the tracker and a USB power source. The indicator light on the tracker will show charging status.

Your browser does not support the video tag.

3.2 App Installation and Activation

Download the official Tractive GPS app from your device's app store (available on iOS and Android). Follow

the in-app instructions to create an account, add your tracker, and select a subscription plan. A subscription is required for the device to function.

3.3 Attaching to Collar

Use the provided rubber attachment clips to securely fasten the Tractive GPS tracker to your dog's collar. Ensure the tracker is snug but comfortable for your pet.

4. Operating Instructions

4.1 Real-time GPS Tracking

Open the Tractive app to view your dog's live location. The tracker provides updates every 2-3 seconds, allowing for precise monitoring of your pet's movements. This feature is particularly useful for quickly locating a lost pet.

See location in real-time

LIVE GPS Tracking

Track your dog's live location with updates every 2-3 seconds—up to 30x faster than competitors.

4.2 Virtual Fence & Location History

Set up virtual safe zones (geofences) within the app. You will receive instant alerts on your smartphone if

your dog enters or exits these predefined areas. The app also stores location history, allowing you to review your dog's past routes and common areas.

Know when they leave

Virtual Fence & Escape Alerts

Set up safe zones and receive escape alerts when your dog leaves the area.

4.3 Health & Activity Monitoring

The Tractive app provides insights into your dog's daily activity levels, sleep patterns, and overall wellness. Monitor metrics such as active minutes, calories burned, and rest duration. The app can also generate health alerts if unusual patterns are detected, prompting you to consult with your veterinarian.

Monitor your dog's health

Health & Activity Monitoring

Your tracker monitors your pet's sleep and activity to ensure you can keep them in optimal shape.

5. Maintenance

5.1 Battery Life and Charging

The tracker's battery lasts up to 10 days, with extended life possible using Power Saving Zones. Recharge the device when the battery level is low using the provided magnetic charging cable. A full charge typically takes approximately 2 hours.

5.2 Waterproof Design

The Tractive GPS tracker is designed to be 100% waterproof, making it suitable for outdoor adventures and various weather conditions. Ensure the charging port is dry before connecting the charger.

5.3 Cleaning

Wipe the tracker clean with a damp cloth as needed. Avoid using harsh chemicals or abrasive materials that could damage the device.

6. Troubleshooting

- **No GPS Signal:** Ensure the tracker has a clear view of the sky. GPS signals can be obstructed indoors or in dense areas.
- **Battery Draining Quickly:** Check if Live Tracking is constantly active. Power Saving Zones can help extend battery life. Ensure the device is fully charged.
- **App Not Updating Location:** Verify your smartphone has an active internet connection. Ensure the tracker is powered on and has cellular coverage.
- **Tracker Not Turning On:** Connect the tracker to the charger for at least 10 minutes. If it still doesn't turn on, contact customer support.

7. Specifications

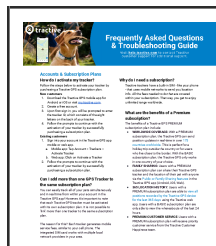

Feature	Detail
---------	--------

Product Dimensions	2.8 x 1.1 x 0.67 inches
Item Weight	1.23 ounces
Item Model Number	TRNJADB
Batteries	1 Lithium Polymer batteries required (included)
Special Feature	Activity Tracker, Geo-Fence, Location History, Real Time Tracking, Waterproof
Connectivity Technology	Cellular, GPS
Supported Application	GPS
Specific Uses For Product	Active, Indoor, Outdoor
