## **SAFETY INFORMATION**

---

Please read all safety instructions carefully before using the product. Failure to follow these instructions may result in injury or damage to the product.

- Keep out of reach of children and pets.
- Do not attempt to modify or repair the handle. Contact customer support for assistance.
- Ensure the handle is securely attached to the P700 Electric Mop before each use.
- Store the handle in a dry place when not in use to prevent damage.

## **PACKAGE CONTENTS**

---

Verify that all items are present in the package:

- 1 x VMAI Handle Cordless Electric Mop (compatible with P700 Electric Mop)

- Screws for installation

## SETUP

---

### Attaching the Handle to the P700 Electric Mop

1. Unpack the VMAI Handle and the included screws from the packaging.
2. Align the base of the handle with the designated attachment point on your P700 Electric Mop unit.
3. Insert the provided screws into the pre-drilled holes on the handle and the mop unit.
4. Tighten the screws firmly using a suitable screwdriver until the handle is securely fastened. Avoid overtightening to prevent damage.

## OPERATING

---

### Using the Keyless System

The VMAI Handle features a keyless system for simplified usage. Once attached, the handle integrates seamlessly with your P700 Electric Mop's existing controls and functionality.

- To power on/off the mop, utilize the power button located on the main mop unit. The handle does not contain separate power controls.
- The handle provides an ergonomic grip and precise control for guiding the mop during cleaning tasks.
- Adjust the angle of the mop head by tilting the handle as needed to clean various surfaces and reach difficult areas, such as under furniture.

## MAINTENANCE

### Cleaning and Storage

- Wipe the handle with a soft, damp cloth to remove any dust or dirt. Do not use harsh chemicals or abrasive cleaners, as these may damage the finish.
- Ensure the handle is completely dry before storing to prevent moisture damage.
- Store the mop with the handle attached in an upright position in a cool, dry place, away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Handle feels loose after installation.	Screws are not tightened sufficiently.	Retighten the screws firmly. If the issue persists, inspect the screw holes and screws for any damage or stripped threads.
Difficulty attaching the handle.	Misalignment or incorrect screws used.	Ensure correct alignment with the P700 Electric Mop's attachment point. Use only the screws provided with the handle.
