Braun 9477cc

Braun Series 9 Pro 9477cc Electric Shaver User Manual

Model: 9477cc | Brand: Braun

1. SAFETY INFORMATION

Always hold the shaver away from your face while turning it on/off. Avoid using the shaver while charging. Clean the shaver after each use to prevent bacterial growth. Be cautious when using near water, although this model is waterproof. Keep out of reach of children. Do not use on irritated or broken skin.

2. PRODUCT OVERVIEW

The Braun Series 9 Pro 9477cc is a waterproof foil shaver designed for a close and gentle shave on various beard lengths. It features advanced technologies for optimal performance and user comfort.

Key Features:

- **ProLift Trimmer:** Captures and cuts flat-lying hair for efficient shaving.
- **Sonic Technology:** Delivers 10,000 microvibrations per minute for a gentle and fast shave.
- **AutoSense Technology:** Adapts shaver power to your beard density.
- **5-in-1 SmartCare Center:** Automatically cleans, lubricates, dries, and charges the shaver.
- **PowerCase:** Portable charging case providing up to 6 weeks of cordless use.
- **Wet & Dry Use:** 100% waterproof for use with foam, gel, or in the shower.

adapts to your beard
density

Figure 7: The shaver effectively handles 1, 3, or 7-day beards with AutoSense technology.

Figure 8: The shaver is designed to last up to 7 years and is Made in Germany.

3. SETUP & FIRST USE

Initial Charging:

Before first use, fully charge your shaver. You can use the Smart Plug directly or place it in the PowerCase or SmartCare Center.

Video 1: Demonstrates charging the Braun Series 9 Pro shaver using the PowerCase. The PowerCase provides 50% more runtime for up to 6 weeks of use without a power supply.

SmartCare Center Setup:

Place the shaver in the SmartCare Center. The center will automatically select the optimal cleaning program, clean, lubricate, dry, and charge your shaver.

Video 2: Shows the 5-in-1 SmartCare Center in action, performing automatic program selection, hygienic cleaning, blade lubrication, active drying, and charging.

First Shave:

For your first shave, ensure the shaver is fully charged. Gently glide the shaver against your skin in the direction opposite to hair growth. The flexible head and ProLift trimmer will adapt to your facial contours.

4. OPERATING INSTRUCTIONS

Wet & Dry Shaving:

The Series 9 Pro is 100% waterproof. You can use it for a dry shave or with shaving foam/gel for a refreshing wet shave. It can also be used under the shower.

Video 3: Illustrates the Braun Series 9 Pro's wet and dry shaving capabilities, highlighting its efficiency and gentleness on various beard lengths.

Using the ProLift Trimmer:

The integrated ProLift trimmer is ideal for capturing and cutting flat-lying hairs, especially on 1, 3, or 7-day beards. It's also useful for sideburns and hard-to-reach areas.

Precision Switch:

Utilize the redesigned precision switch to lock the shaver's head for enhanced control and precision, particularly in tricky areas like under the jawline and nose.

5. MAINTENANCE & CLEANING

Daily Cleaning:

For optimal performance, clean your shaver after each use. You can rinse the shaver head under running water or use the SmartCare Center.

SmartCare Center Cleaning:

The 5-in-1 SmartCare Center automatically cleans, lubricates, and dries your shaver. Ensure the cleaning cartridge is properly inserted. The center will indicate when the fluid needs replacement.

Replacing Shaver Head:

The shaver head (94M) should be replaced annually, or every 18 months, for continued optimal performance. Some users prefer to replace it twice a year.

Cleaning Cartridge Replacement:

The cleaning cartridges for the SmartCare Center are consumables. The center will indicate when a new cartridge is needed. Regular replacement ensures hygienic cleaning and lubrication.

6. TROUBLESHOOTING

If you experience any issues with your Braun Series 9 Pro shaver, please refer to the detailed troubleshooting section in the full user manual. Common issues may include reduced shaving performance or irritation, which can often be resolved by ensuring proper cleaning, head replacement, or correct usage technique.
