Weehom Twin Bed Frame with Headboard

Model: B099WVZC9J

[Introduction](#) [Safety Information](#) [Package Contents](#) [Setup & Assembly](#) [Operating](#)
[Instructions](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Weehom Twin Bed Frame with Headboard. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Figure 1.1: Overall dimensions of the Weehom Twin Bed Frame. The bed frame measures 77.44 inches in length, 38.58 inches in width, and 36.22 inches in height. The under-bed clearance is 12.7 inches.

2. SAFETY INFORMATION

- **Maximum Weight Capacity:** The bed frame is designed to support a maximum weight of 300-450 lbs. Do not exceed this limit to prevent damage or injury.
- **Assembly:** Assemble the bed frame carefully according to the instructions to ensure stability. Incorrect assembly can lead to instability and potential hazards.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Loose connections can compromise the frame's stability.
- **Placement:** Ensure the bed frame is placed on a flat, level surface. Uneven surfaces can cause stress on the frame and lead to instability.
- **Children:** Keep small parts away from children during assembly to avoid choking hazards.

3. PACKAGE CONTENTS

Before assembly, verify that all components listed below are present in your package:

- Bed Frame components (metal frame sections, headboard panels)
- Instruction Manual
- Hardware Set (bolts, washers, nuts, Allen wrench)

4. SETUP & ASSEMBLY

Follow these steps to assemble your Weehom Twin Bed Frame. It is recommended to assemble the bed frame with at least two people.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches.
2. **Identify Parts:** Refer to the parts list in your hardware set to identify each component.
3. **Assemble Frame Sections:** Connect the main metal frame sections using the provided bolts and the Allen wrench. Do not fully tighten bolts until all sections are loosely connected.
4. **Attach Headboard and Footboard:** Secure the wooden headboard and footboard panels to the metal frame using the designated hardware.
5. **Install Slats:** Place the heavy-duty steel slats across the frame. Ensure each slat is properly seated and secured. The design includes rubber buckles for easier assembly and to reduce friction noise.

6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts.

Figure 4.2: The fully assembled bed frame, ready for a mattress.

5. OPERATING INSTRUCTIONS

This bed frame is designed for use with a twin-sized mattress. No box spring is required due to the robust steel slat support system.

- **Mattress Placement:** Carefully place your twin mattress directly onto the steel slats. The headboard and footboard design helps prevent the mattress from sliding.
- **Under-Bed Storage:** The frame provides 12.7 inches of under-bed clearance, ideal for storing items in bins or containers, helping to keep your room organized.

Figure 5.1: The 12.7-inch under-bed clearance provides ample space for storage.

Figure 5.2: The wooden headboard provides a comfortable backrest.

6. MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe the bed frame with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Inspection:** Periodically inspect the frame for any signs of wear, loose bolts, or damage. Address any issues promptly to maintain structural integrity.

7. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** If the bed frame makes noise, check all bolts and connections to ensure they are securely tightened. The rubber buckles on the slats are designed to minimize noise, but loose connections can still cause squeaking.

- **Instability:** Ensure the bed frame is on a level surface. Re-tighten all assembly bolts if the frame feels wobbly.
- **Missing Parts:** If any parts are missing upon arrival, please contact Weehom customer support immediately for assistance.

8. SPECIFICATIONS

Feature	Detail
Model	B099WVZC9J
Size	Twin
Material	Alloy Steel, Wood, Metal
Product Dimensions (L x W x H)	77.44" x 38.58" x 36.22"
Under-Bed Clearance	12.7 inches
Maximum Weight Recommendation	450 pounds
Color	Teak (Wooden Headboard), Black (Metal Frame)
Compatible Mattress Size	Twin
Assembly Required	Yes
Included Components	Bed Frame, Instruction Manual, Hardware Set

9. WARRANTY & SUPPORT

For warranty information or customer support, please refer to the documentation included with your purchase or contact Weehom directly through their official website or the retailer where the product was purchased. Please have your model number (B099WVZC9J) and purchase date available when contacting support.
