# Kwikset Breton Interior Privacy Door Handle Instruction Manual

## 1. PRODUCT OVERVIEW

---

The Kwikset Breton Interior Privacy Door Handle is designed for use on interior doors requiring privacy, such as bedrooms and bathrooms. This lever features a modern, flat profile and is finished in matte black. It includes a turn button for locking from the inside and an emergency release for unlocking from the outside. The handle is reversible for both left- and right-handed doors and incorporates Microban antimicrobial protection.

### 3. PRODUCT FEATURES

#### 3.1. Locking Privacy

This lever is designed for privacy applications. It can be locked from the inside using the turn button. For emergency access, the exterior side features a small hole where the provided emergency unlock tool can be inserted to disengage the lock.

### **3.3. Durable Construction**

Constructed from solid metal, this door handle is designed for high durability. The robust chassis helps prevent lever sag and wobble, ensuring long-term performance.

### **3.4. Microban Antimicrobial Protection**

Kwikset door hardware is treated with Microban antimicrobial technology. This protection inhibits the growth of bacteria on the surface, making the handle 99.9% cleaner than an unprotected surface.

## 4. INSTALLATION

Installation of the Kwikset Breton door handle is designed to be straightforward and can typically be completed with a screwdriver. Detailed directions are provided in the packaging.

### 4.1. Prepare the Door

Ensure your door is prepared with the correct bore holes. This handle fits standard door thicknesses from 1-3/8" to 1-3/4". The latch backset is adjustable to either 2-3/8" or 2-3/4" with a simple twist during installation.

### 4.2. Install the Latch

Insert the latch into the door edge. Adjust the backset if necessary. Secure the latch with screws.

### 4.3. Install the Levers

Position the exterior and interior levers on either side of the door, aligning them with the latch mechanism. Secure the levers using the provided screws and Allen wrench. Ensure the levers are level and operate smoothly.

## 5. OPERATING INSTRUCTIONS

---

### 5.1. Locking the Door

From the interior side of the door, rotate the turn button to engage the lock. The door will then be secured.

### 5.2. Unlocking the Door (Interior)

From the interior side, rotate the turn button back to its original position to unlock the door. The lever will then operate freely.

### 5.3. Emergency Unlocking (Exterior)

In case of an emergency or accidental lockout, insert the emergency unlock tool (or a small, pointed object) into the small hole on the exterior lever. Push firmly to disengage the locking mechanism.

## 6. MAINTENANCE

---

To maintain the appearance and functionality of your Kwikset Breton door handle, follow these guidelines:

- **Cleaning:** Clean the handle regularly with a soft, damp cloth. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and the Microban protection.
- **Lubrication:** If the latch mechanism becomes stiff, apply a small amount of silicone-based lubricant to the moving parts. Do not use oil-based lubricants, as they can attract dust and debris.
- **Microban Protection:** The integrated Microban antimicrobial technology works continuously to keep the handle surface cleaner. Regular cleaning as described above will help maintain its effectiveness.

## 7. TROUBLESHOOTING

---

If you encounter issues with your Kwikset Breton door handle, consider the following common solutions:

- **Loose Handle:** If the lever feels loose, check the screws on both the interior and exterior sides of the handle. Tighten them gently with a screwdriver.
- **Sticking Latch:** If the latch bolt is sticking or not retracting smoothly, ensure the strike plate on the door frame is properly aligned. You may need to adjust the strike plate or lubricate the latch mechanism as described in the Maintenance section.
- **Lock Not Engaging:** Verify that the turn button on the interior side is fully rotated. If the issue persists, check for any obstructions in the latch mechanism or ensure the handle is correctly installed and aligned.

For persistent issues, refer to the detailed installation guide or contact Kwikset customer support.

## 8. SPECIFICATIONS

---

Specification	Detail
Model Number	93002-021
Material	Metal
Color	Matte Black
Style	Privacy Lever
Product Dimensions (L x W)	7.5" x 6.1"
Item Weight	1.5 Pounds
Door Thickness Compatibility	1-3/8" to 1-3/4"
