4. SETUP AND ASSEMBLY

Assembly of your FEZIBO standing desk is designed to be straightforward. It is recommended that two people assemble the desk to ensure ease and safety, especially when handling the tabletop sections and lifting the frame.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Verify against the package contents list.
2. **Assemble Desk Frame:** Follow the included assembly instructions to connect the desk legs to the crossbar and motor assembly. Ensure all screws are tightened securely.
3. **Attach Tabletop:** The tabletop comes in two splice pieces. Align and secure these pieces to the assembled frame using the provided hardware. Ensure the seam is flush.
4. **Install Drawers:** Mount the double wooden drawers beneath the tabletop according to the instructions.
5. **Connect Control Panel and Power:** Attach the control panel to the designated area under the desk. Connect the motor cables and power adapter.
6. **Install Accessories:** Attach any additional accessories like desk hooks or casters if desired. The casters allow for mobility and can be locked for stability.

- **Up/Down Arrows (▲ / ▼):** Press and hold to adjust the desk height manually. Release to stop at your desired height.
- **Memory Buttons (1, 2, 3):** These buttons allow you to save and recall up to three preferred height settings. To save a height: Adjust the desk to the desired height, then press the 'S' button followed by the desired memory button (1, 2, or 3). To recall a height: Simply press the corresponding memory button (1, 2, or 3).
- **Setting Button (S):** Used to program memory height settings.

5.3. Anti-Collision Technology

The desk is equipped with an auto-sensing anti-collision system. If the desk encounters an obstruction during height adjustment, it will automatically stop and reverse slightly to prevent damage to the desk or objects.

5.4. Double Wooden Drawers

Two integrated wooden drawers provide convenient storage for office supplies, keeping your workspace tidy and organized.

6. MAINTENANCE

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Regular Checks:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Cable Management:** Ensure power cables are not pinched or tangled, which could affect motor operation.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Desk does not move or respond to controls.	Power cable disconnected, motor cable loose, power outage.	Check power connections. Ensure all motor cables are securely plugged in. If recently experienced a power outage, perform a reset (see below).
Desk stops during adjustment.	Anti-collision system activated, weight overload.	Remove any obstructions. Reduce weight on the desk if it exceeds 155 lbs.

Problem	Possible Cause	Solution
