Hicarer Clear, 30mm, 20mm, 12mm, 8mm, 4mm (ASIN: B09B28FN6G)

Hicarer 800-Piece Diamond Decorations

INSTRUCTION MANUAL

Model: Clear, 30mm, 20mm, 12mm, 8mm, 4mm (ASIN: B09B28FN6G)

Product Overview

The Hicarer 800-Piece Diamond Decorations are a versatile set of acrylic crystals designed for various decorative purposes. This package includes a comprehensive combination of sizes, ranging from 4mm to 30mm, to cater to diverse creative needs. Each piece is crafted from quality acrylic, ensuring durability and a realistic appearance. These lightweight crystals are intended for aesthetic enhancement and will remain submerged when placed in water.

They are ideal for adding sparkle and elegance to events, home decor, and craft projects.

Safety Information

- **Choking Hazard:** This product contains small pieces. Keep out of reach of small children to prevent accidental ingestion.
- **Intended Use:** These acrylic crystals are for decorative purposes only. They are not designed for cooling beverages or any food-related applications.
- **Material Safety:** Made from quality acrylic, which is safe for general decorative use. Avoid prolonged exposure to direct sunlight or extreme heat to prevent material degradation.

Setup and Preparation

Before using the diamond decorations, ensure the area or container where they will be placed is clean and dry. If using them as vase fillers, clean the vase thoroughly to ensure optimal clarity and sparkle of the crystals.

Product Size

4MM

8MM

12MM

20MM

30MM

Great way to add some sparkle to an event or table while entertaining

Operating and Usage

The Hicarer diamond decorations are designed for versatile application in various settings:

- **Vase Fillers:** Place the crystals at the bottom of clear vases to enhance floral arrangements or stand alone as decorative elements.
- **Table Scatter:** Distribute the crystals across tabletops for weddings, parties, or special events to create a shimmering effect.
- **Home Decor:** Use them in bowls, trays, or display cases as elegant accents. They can also be incorporated into DIY craft projects.
- **Photo Props:** Utilize the crystals to add visual interest and sparkle to product photography or creative shoots.

The faceted design of the crystals allows them to catch and reflect light, creating a beautiful sparkling effect, especially under direct illumination.

Maintenance and Care

To maintain the clarity and sparkle of your Hicarer diamond decorations:

- **Cleaning:** Gently wipe the crystals with a soft, damp cloth to remove dust or smudges. Avoid abrasive cleaners or harsh chemicals, as these can scratch or damage the acrylic surface.
- **Drying:** After cleaning, dry the crystals thoroughly with a lint-free cloth to prevent water spots.
- **Storage:** Store the crystals in a clean, dry container away from direct sunlight and extreme temperatures when not in use. This helps preserve their appearance and prevents discoloration.

Troubleshooting

Issue	Possible Cause	Solution
Crystals appear dull or less sparkly.	Dust accumulation or smudges on the surface.	Clean the crystals as per the "Maintenance and Care" section. Ensure they are dry and free of residue.
Crystals do not float in water.	This is expected behavior. The crystals are designed to be lightweight but will sink in water.	No action required. This is normal for acrylic vase fillers.
Crystals are smaller than expected.	Misconception of size based on images; the set includes a range of sizes.	Refer to the "Specifications" section for the exact size distribution (4mm, 8mm, 12mm, 20mm, 30mm). The set is designed to offer a variety of sizes for different decorative needs.
