## 3. SETUP

---

### 3.1 Battery Installation

1. Locate the battery compartment at the base of the brush handle.
2. Twist or slide the battery compartment cap to open it.
3. Insert 4 x AA batteries, ensuring they are placed with the correct polarity as indicated by the symbols inside the compartment.
4. Securely fasten the battery compartment cap until it clicks into place.

### 3.2 Attaching Brush Heads

1. Select the desired brush head for your cleaning task.
2. Align the brush head with the connection point on the main unit.
3. Insert the brush head and gently twist it clockwise until it is securely fastened. Ensure it does not wobble.

## 4. OPERATING INSTRUCTIONS

---

Once the batteries are installed and a brush head is attached, the Beldray Deep Clean Electric Cleaning Brush is ready for use.

### 4.1 General Operation

1. Press the power button located on the handle to turn the brush ON. The brush head will begin to oscillate.
2. Apply the oscillating brush head to the surface you wish to clean.
3. Move the brush gently over the surface. **Do not press too hard**, as excessive pressure can prevent the brush head from rotating effectively.
4. After cleaning, press the power button again to turn the brush OFF.

### 4.2 Using Different Brush Heads

#### Large Bristle Brush Head

Ideal for larger areas and tougher stains.  
Perfect for cleaning grout lines and tiles in bathrooms and kitchens.

## 5. MAINTENANCE

---

### 5.1 Cleaning the Brush Heads

After each use, it is recommended to clean the brush heads to maintain hygiene and performance:

- Remove the brush head from the main unit by twisting it counter-clockwise.
- Rinse the brush head under running water to remove any dirt or debris.
- For stubborn residue, use a mild soap and gently scrub the bristles.
- Allow the brush head to air dry completely before reattaching or storing.

### 5.2 Storage

Store the Beldray Deep Clean Electric Cleaning Brush and its accessories in a clean, dry place away from direct sunlight and extreme temperatures. The compact size (approximately 26 x 2.6 x 2.6 cm) allows for convenient storage in most utility drawers or cabinets.

## 6. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Brush does not turn ON / No power.	Batteries are not inserted correctly. Batteries are depleted. Battery compartment cap is not securely fastened.	Ensure batteries are inserted with correct polarity (+/-). Replace with new AA batteries. Check that the battery compartment cap is securely closed.
Brush head stops rotating or slows down significantly during use.	Excessive pressure applied to the cleaning surface. Brush head is not securely attached.	Reduce pressure on the cleaning surface. The brush is designed for light, oscillating action. Ensure the selected brush head is inserted and twisted clockwise to secure it firmly.
