JAMBO 45290

JAMBO XL Premium 20Ft Double Lane Water Slide Instruction Manual

Model: 45290

1. INTRODUCTION

Thank you for choosing the JAMBO XL Premium 20Ft Double Lane Water Slide. This manual provides essential information for the safe and enjoyable use, setup, operation, and maintenance of your water slide. Please read all instructions carefully before assembly and use.

This image shows the JAMBO XL Premium 20Ft Double Lane Water Slide in use, with two children enjoying the slide on inflatable bodyboards. Water sprays from the side channels, ensuring a slippery surface for optimal sliding.

2. SAFETY INFORMATION

- **Adult Supervision Required:** Always ensure constant and active adult supervision when the water slide is in use.
- **Age and Weight Limits:** Recommended for ages 5 years and older. Maximum weight recommendation is 200 pounds.
- **Clear Area:** Set up the slide on a flat, soft surface, such as grass, free from rocks, sharp objects, or debris. Ensure adequate clear space around the slide.

- **Water Depth:** The splash mat at the end of the slide is shallow. Do not dive.
- **Material Safety:** The slide is made from Polyvinyl Chloride (PVC) and is BPA and Phthalates Free. It is independently tested and certified for international safety standards (ASTM, CPSIA, SGS TÜV SAAR).
- **Inflatable Bumpers:** The slide features inflatable bumpers around the edges for extra cushioning and to help contain water.
- **No Running Start:** Encourage users to start from a seated or prone position to prevent injury.
- **Avoid Head-First Sliding:** Always slide feet-first.
- **One User Per Lane:** To prevent collisions, only one person should slide down each lane at a time.

Safe AND Fun

ASTM CPSIA SGS TÜV SAAR

- Independently Tested and Certified for International Safety Standards
- BPA and Phthalates Free
- Inflatable Bumper Around the Slide for Extra Cushioning

Jambo™

The JAMBO XL Premium 20Ft Double Lane Water Slide is independently tested and certified to international safety standards (ASTM, CPSIA, SGS TÜV SAAR). It is also BPA and Phthalates Free, and includes an inflatable bumper for extra cushioning, ensuring a safe and fun play environment.

3. PACKAGE CONTENTS

Verify that all items are present before setup:

- 1 x JAMBO XL Premium 20Ft Double Lane Water Slide
- 2 x Inflatable Bodyboards
- Ground Stakes (for securing the slide)
- Repair Patch Kit

4. SETUP INSTRUCTIONS

1. **Choose a Location:** Select a flat, grassy area in your backyard, free from sharp objects, debris, or uneven terrain. Ensure the area is large enough for the 20-foot slide and provides ample run-off space.
2. **Unroll the Slide:** Carefully unroll the JAMBO XL Premium Water Slide in your chosen location.
3. **Inflate Bumpers:** Locate the air valves on the inflatable bumpers around the perimeter of the slide. Inflate these sections using an air pump (not included) until firm but not over-inflated.
4. **Connect Water Source:** Attach a standard garden hose to the water inlet connector on the side of the slide. Ensure a secure connection to prevent leaks.
5. **Secure with Ground Stakes:** Use the provided ground stakes to anchor the slide firmly to the ground, especially at the corners and along the sides, to prevent movement during use.
6. **Turn on Water:** Slowly turn on the water supply. The advanced 3-way sprinkler system will begin to spray water across both lanes, wetting the sliding surface. Adjust water pressure as needed for optimal spray.
7. **Inflate Bodyboards:** Inflate the two included bodyboards until they are firm.

Advanced Surround Sprinkler System

More Wetness for Maximum Weeeeeeee!

The advanced 3-way sprinkler system is designed to provide continuous water coverage across both lanes of the slide, enhancing the sliding experience and keeping the surface consistently wet.

5. OPERATING INSTRUCTIONS

- Ensure Sufficient Water:** Confirm that the slide surface is adequately wet from the sprinkler system before use.
- Use Bodyboards:** For the best and safest sliding experience, use the provided inflatable bodyboards. This helps reduce friction and provides cushioning.
- Sliding Position:** Users should lie prone (on their stomach) on the bodyboard, feet-first, with hands gripping the front of the board.
- Enhance Slipperiness (Optional):** A small amount of tear-free dish soap can be added to the slide surface to increase slipperiness. Apply sparingly and rinse thoroughly after use.
- Slide Down:** Push off gently and slide down the lane, aiming for the splash mat at the end.
- Exit Safely:** After sliding, exit the splash mat area promptly to allow other users to slide.

Ultra Glossy Finish Ultra Slippery

Get ready to slide, splash, repeat!

The slide features an ultra-glossy finish that ensures an ultra-slippery surface, allowing for fast and smooth sliding. This design maximizes the fun and speed of the experience.

6. MAINTENANCE

- **Cleaning:** After each use, rinse the entire slide with fresh water to remove dirt, grass, and any soap residue.
- **Drying:** Allow the slide to air dry completely in a shaded area before deflating and storing. This prevents mold and mildew growth.
- **Storage:** Deflate the slide and bodyboards. Fold or roll them neatly and store them in a cool, dry place away from direct sunlight and extreme temperatures. Keep them in the original packaging or a protective bag to prevent punctures.
- **Inspection:** Regularly inspect the slide for any signs of wear, tears, or damage. Address any issues promptly using the repair patch kit.

Heavy Duty, Long-Lasting

The water slide is constructed from premium, heavy-duty PVC material with strong seams, designed for durability and long-lasting use. Its super thick construction ensures resilience against wear and tear.

7. TROUBLESHOOTING

- **Insufficient Water Spray:**

- Check if the garden hose is fully connected and the water supply is turned on.
- Ensure there are no kinks in the hose.
- Verify that the water pressure from your outdoor faucet is adequate.

- **Slide Not Slippery Enough:**

- Increase water flow if possible.
- Apply a small amount of tear-free dish soap to the slide surface (as per operating instructions).

- **Punctures or Tears:**

- Locate the puncture.

- Clean and dry the area around the hole.
- Apply a patch from the included repair kit according to the patch kit instructions. Allow sufficient time for the adhesive to cure before re-inflating.

- **Slide Moving During Use:**

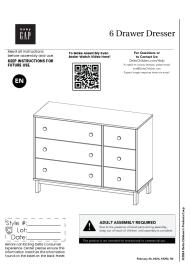

- Ensure all ground stakes are properly inserted and securing the slide.
- Verify the slide is on a flat surface.

8. SPECIFICATIONS

Brand	JAMBO
Model Number	45290
Size	20FT Double Lane
Product Dimensions	264 x 72 x 0.25 inches
Item Weight	8.6 pounds
Material	Polyvinyl Chloride (PVC)
Color	Yellow, Blue
Age Range (Description)	5 Years and Older
Maximum Weight Recommendation	200 Pounds
Assembly Required	Yes
UPC	850019692211
