Skip Hop Cozy Up 2-in-1 Bedside Sleeper & Bassinet Instruction Manual

Model: 9I099910

1. PRODUCT OVERVIEW

The Skip Hop Cozy Up 2-in-1 Bedside Sleeper & Bassinet offers a versatile sleep solution for infants, functioning as both a bedside sleeper and a stand-alone bassinet. Designed for proximity and comfort, it features an easy-access door panel for bedside mode, allowing parents to attend to their baby without fully getting out of bed. In bassinet mode, the unit provides a secure sleep environment and can be easily moved between rooms thanks to its pivot-and-lock wheels. The design incorporates mesh sides for optimal breathability and visibility, a waterproof mattress, and a soft, machine-washable sheet.

2. IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always use the bassinet on a firm, flat surface.
- Do not use this product if any parts are missing, damaged, or broken. Contact Skip Hop for replacement parts and instructional literature if needed. Do not substitute parts.
- The bassinet is intended for infants who cannot push up on their hands and knees, pull up, or sit unassisted. Maximum weight recommendation is 20 lbs (9 kg).
- To prevent falls, do not use this product when the infant begins to push up on hands and knees or has reached 20 lbs (9 kg), whichever comes first.
- Never place pillows, quilts, comforters, or extra padding in the bassinet.
- Ensure all assembly fasteners are securely tightened before use.
- When used as a bedside sleeper, ensure the bassinet is securely attached to the adult bed using the provided straps. The bassinet mattress must be level with the adult mattress.
- Always engage the wheel locks when the bassinet is stationary.

3. PACKAGE CONTENTS

Verify that all components are present before assembly:

- Bassinet Frame (Alloy Steel, PP, ABS, Nylon, POM, TPR, Wood, MDF components)
- Bassinet Fabric (Polyester mesh)
- Waterproof Mattress Cover

- Machine Washable Sheet
- Attachment Straps for Bedside Sleeper Mode
- Assembly Hardware (screws, etc.)
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly is required. Please refer to the detailed diagrams in the included printed manual for step-by-step instructions. Ensure all screws and fasteners are tightened securely. Do not overtighten.

1. Unpack all components and verify against the package contents list.
2. Assemble the base frame according to the diagrams, ensuring all wooden and metal parts are correctly aligned and secured.
3. Attach the bassinet body to the assembled frame.
4. Insert the mattress into the bassinet body.
5. Place the machine washable sheet over the waterproof mattress cover.

5. OPERATING MODES

5.1 Stand-Alone Bassinet Mode

In stand-alone bassinet mode, the unit functions as a traditional bassinet. Ensure the side panel is in the upright and locked position. The pivot-and-lock wheels allow for easy movement around the room. Always engage the wheel locks when the bassinet is stationary to prevent accidental movement.

5.2 Bedside Sleeper Mode

To use as a bedside sleeper, position the bassinet next to your adult bed. Adjust the bassinet height so that its mattress is level with your adult mattress. Lower the easy-access door panel by pressing the release buttons on each side and gently sliding the panel down. Secure the bassinet to your adult bed using the provided attachment straps to prevent any gap between the bassinet and the bed. This mode allows for easy access to your baby for feeding or comforting during the night.

6. ADJUSTMENTS

6.1 Height Adjustment

The bassinet features multiple height settings to align with various adult bed heights. To adjust the height, locate the adjustment mechanisms on the legs of the bassinet. Follow the instructions in the printed manual to safely raise or lower the bassinet to the desired level. Ensure both sides are adjusted equally and securely locked into place before placing your infant inside.

6.2 Side Panel Operation

The easy-access side panel can be lowered for bedside sleeper mode and raised for stand-alone bassinet mode. To lower, press the release buttons on the top of the side rails and gently slide the panel down. To raise, lift the panel until it clicks securely into the upright position. Always ensure the panel is fully locked when not in bedside sleeper mode.

7. PORTABILITY

The bassinet is equipped with pivot-and-lock wheels for easy mobility. To move the bassinet, unlock the wheels. Once in the desired location, engage the wheel locks to ensure stability and prevent unintended movement. This feature allows you to keep your baby close by, whether in the bedroom, living room, or other areas of your home.

8. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will prolong the life of your bassinet.

- **Fabric Components:** The soft sheet and fabric lining are machine washable. Refer to the care label for specific washing instructions (typically cold water, gentle cycle, tumble dry low).
- **Mattress Cover:** The mattress cover is waterproof and can be wiped clean with a damp cloth and mild soap.
- **Frame:** Wipe the frame components with a damp cloth and mild soap. Do not use abrasive cleaners.
- **Inspection:** Periodically check all screws, fasteners, and moving parts to ensure they are secure and functioning correctly.

9. SPECIFICATIONS

Feature	Detail

10. TROUBLESHOOTING

If you encounter any issues with your Skip Hop Cozy Up Bassinet, please refer to the following common solutions:

- **Difficulty with Assembly:** Ensure all parts are correctly oriented as per the manual diagrams. Do not force components.
- **Bassinet Feels Unstable:** Double-check that all screws and fasteners are securely tightened. Ensure the height adjustment mechanisms are fully locked on both sides. If using wheels, ensure they are locked when stationary.
- **Side Panel Not Lowering/Raising:** Verify that the release buttons are fully pressed when attempting to adjust the panel. Check for any obstructions.
- **Wheels Not Rolling Smoothly:** Check for debris in the wheel mechanisms. Ensure wheel locks are disengaged.
