CATLINK CL-03

CATLINK Self Cleaning Cat Litter Box (Young Version)

Model: CL-03

1. INTRODUCTION

The CATLINK Self Cleaning Cat Litter Box (Young Version) is an automatic litter management system designed to simplify pet care. This device efficiently separates cat waste from clean litter, providing a hygienic environment for your feline companion and reducing the frequency of manual scooping.

It is suitable for cats weighing between 3.5 pounds and 22 pounds. The system features double odor removal capabilities and a large waste drawer, minimizing daily maintenance for pet owners.

Image 1: The CATLINK Self Cleaning Cat Litter Box (Young Version) with a cat inside.

2. SETUP

The CATLINK Self Cleaning Cat Litter Box is designed for straightforward setup without the need for Wi-Fi connectivity or a dedicated application. It arrives fully assembled, ready for immediate use.

Initial Setup Steps:

1. Unpack the litter box from its packaging.
2. Place the unit on a flat, stable surface.
3. Connect the power adapter to the litter box and plug it into a standard electrical outlet.

4. Add clumping cat litter to the globe, ensuring it does not exceed the maximum fill line indicated inside the unit.

Once these steps are completed, the litter box is ready to operate.

Image 2: Visual representation of the easy setup process, highlighting no app or Wi-Fi needed.

Setup Video Guide:

Your browser does not support the video tag.

Video 1: An official guide demonstrating how to set up your CATLINK Self Cleaning Cat Litter Box (Young Version).

3. OPERATING INSTRUCTIONS

The CATLINK Self Cleaning Cat Litter Box operates automatically to maintain cleanliness and reduce odors.

Automatic Cleaning Cycle:

- After a cat exits the litter box, the integrated sensors detect their departure.

- Following a brief delay, the internal globe rotates, sifting the clean litter from the waste.
- Waste is deposited into the 13-liter ultra-large waste drawer located at the base of the unit.
- The globe then returns to its original position, leaving fresh, clean litter for the next use.

The waste drawer capacity is designed to hold waste for approximately 15 days for a single cat, reducing the frequency of waste disposal.

Safety Features:

The litter box incorporates multiple safety mechanisms to ensure the well-being of your pet:

- **Self-Detection:** The system can detect a cat's presence and will pause operation if a cat enters during a cleaning cycle.
- **Gravity Sensor:** Detects the weight of the cat, ensuring the cleaning cycle only initiates when the cat has left the unit.
- **Anti-Pinch Sensors:** Prevents potential pinching by stopping movement if an obstruction is detected.
- **Ventilated and Inverted Triangle Stable Structure:** Provides a secure and breathable environment.

Image 3: Diagram illustrating the safety protection features including infrared, anti-pinch, and gravity sensors.

Odor Control:

To minimize unpleasant odors, the litter box utilizes:

- An optional rechargeable odor purifier (sold separately).
- A carbon filter, which is highly effective in eliminating odors, formaldehyde, and ammonia, with a removal rate of 90% or more.

A litter barrier at the entrance also helps to reduce litter tracking outside the box.

Image 4: Close-up view of the sealed rubber ring and carbon filter for advanced odor control.

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your CATLINK Self Cleaning Cat Litter Box.

Waste Drawer Emptying:

- The 13L waste drawer should be emptied and the trash liner replaced approximately every 15 days for one cat. For multiple cats, more frequent emptying will be required.
- To empty, slide out the waste drawer from the front of the unit, remove the filled liner, and dispose of it.
- Insert a new waste bag into the drawer before sliding it back into place.

Carbon Filter Replacement:

- The carbon filter, located within the waste bin, should be replaced periodically to maintain effective odor removal. Refer to the filter packaging for recommended replacement intervals.

General Cleaning:

- Wipe down the exterior of the unit with a damp cloth as needed.
- For deeper cleaning, the internal globe can be accessed and wiped. Ensure the unit is unplugged before performing any extensive cleaning.
- Only use clumping cat litter. Non-clumping litters are unsuitable and may affect the sifting mechanism. Ensure the litter level does not exceed the MAX line inside the globe.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your CATLINK Self Cleaning Cat Litter Box.

Common Issues and Solutions:

- **Unit Not Cycling:** Ensure the power adapter is securely plugged in and the unit is receiving power. Check if the waste drawer is properly inserted and not full. Verify no cat is currently inside the globe, as safety sensors will prevent operation.
- **Odor Persists:** Check if the carbon filter needs replacement. Ensure the waste drawer is emptied regularly. Consider using the optional rechargeable odor purifier.
- **Litter Not Sifting Properly:** Confirm that only clumping cat litter is being used. Check that the litter level does not exceed the MAX line. Excessive litter or non-clumping litter can hinder the sifting process.
- **Error Indicator Light:** If an error light illuminates, refer to the specific indicator pattern on the unit's control panel. Common causes include an improperly seated waste drawer, an obstruction, or a cat detected inside. Remove any obstructions and ensure proper assembly.

If issues persist after attempting these solutions, please contact CATLINK customer support for further assistance.

6. SPECIFICATIONS

Detailed specifications for the CATLINK Self Cleaning Cat Litter Box (Young Version).

Feature	Specification
Model Name	Young Version
Item Model Number	CL-03
Dimensions (L x W x H)	23.62 x 23.62 x 27.95 inches

Feature	Specification
Item Weight	26 pounds
Globe Capacity	57 Liters
Waste Drawer Capacity	13 Liters
Cat Weight Capacity	3.5 lbs to 22 lbs
Material	Polypropylene (PP)
Color	Gray
Connectivity	No Wi-Fi / No App Function
Included Components	Cat Litter Box*1, Cat Litter Filter*2, Power Adapter*1, Waste Bag*1, User Manual*1
