## Geeni GN-CW236-199

# Geeni Glimpse 1080p Smart Indoor Camera Instruction Manual

MODEL: GN-CW236-199 | BRAND: GEENI

## Product Overview

The Geeni Glimpse 1080p Smart Indoor Camera offers advanced surveillance features for your home. With crystal-clear 1080p HD video and a wide 110° viewing angle, it ensures maximum coverage. Key functionalities include motion detection with real-time alerts, two-way audio for instant communication, and automatic infrared night vision for 24/7 monitoring. You can securely store footage via cloud storage or a MicroSD card (sold separately). The camera is also compatible with Amazon Alexa and Google Assistant for convenient voice control.

## Key Features

- **1080p HD Video & 110° Wide-Angle Lens:** Provides sharp, high-definition video with extensive coverage.
- **Motion Detection with Real-Time Alerts:** Receive instant notifications on your phone when movement is detected. Customizable detection zones and sensitivity.
- **Two-Way Audio:** Communicate with family, pets, or visitors directly through the camera using the built-in microphone and speaker.
- **Night Vision:** Automatic infrared night vision ensures clear footage in low-light conditions for round-the-clock security.
- **Cloud & MicroSD Storage:** Flexible storage options for your video recordings.
- **Voice Control Compatibility:** Works with Amazon Alexa and Google Assistant for hands-free operation.

## Setup Guide

Follow these simple steps to set up your Geeni Glimpse Smart Indoor Camera:

1. **Download the Geeni App:** Search for 'Geeni' in your smartphone's app store (available on iOS App Store and Google Play Store).
2. **Power On:** Connect the camera to a power source using the provided USB cable and power adapter. The camera will power on automatically.
3. **Connect:** Open the Geeni app and follow the on-screen instructions to add your new camera. Ensure your Wi-Fi network is 2.4GHz.

## Operation

---

### Live View & Recording

Access the live video feed of your camera anytime, anywhere, directly from your smartphone using the Geeni app. You can also manually record video clips or capture still images from the live view.

# Never Miss a Thing

Watch live video of your home, anytime, anywhere, right from your smartphone.

## Two-Way Audio

The built-in microphone and speaker allow for clear, two-way communication. Press and hold the speak button in the app to talk, and release to listen.

# Instant Two-Way Audio

Talk to anyone on camera instantly using the built-in microphone and speaker.

## Motion Detection

The camera detects movement and sends real-time notifications directly to your phone. You can customize detection zones and sensitivity levels within the Geeni app to focus on specific areas and reduce false alarms.

# Motion Detection

Detect movement and send real-time notifications right to your phone.

Image: A smartphone screen showing a notification from the Geeni app indicating "Movement detected," illustrating the motion detection feature.

## Night Vision

The Geeni Glimpse camera is equipped with automatic infrared night vision, allowing you to monitor your space effectively even in complete darkness. It provides clear footage up to 20 feet.

# Set Up Anywhere

Mount on any wall and use the swivel-designed neck to find the perfect angle.

Image: A Geeni camera positioned in a dimly lit kitchen, showcasing its high-quality night vision for seamless nighttime surveillance.

## Cloud & MicroSD Storage

Choose between secure cloud storage (subscription may be required) or local storage using a MicroSD card (up to 128GB, sold separately) to save your video footage.

## Care and Maintenance

---

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using harsh chemicals or abrasive cleaners.
- **Placement:** Ensure the camera is placed in a stable location, away from direct sunlight, heat sources, and moisture.
- **Software Updates:** Regularly check the Geeni app for firmware updates to ensure optimal performance and security.

## Troubleshooting

---

Problem	Possible Solution
Camera not connecting to Wi-Fi	Ensure your Wi-Fi network is 2.4GHz. Check Wi-Fi signal strength. Try restarting your router and the camera. Re-add the camera in the Geeni app.
Poor video quality	Check your internet connection speed. Ensure the camera lens is clean. Adjust camera placement for optimal lighting.
Two-way audio not working	Check microphone and speaker settings in the Geeni app. Ensure your phone's volume is up.
Motion alerts not received	Verify motion detection is enabled in the app. Check notification settings on your phone. Adjust sensitivity and detection zones.

If you continue to experience issues, please refer to the customer support section for further assistance.
