BloomingVille AH2128

Bloomingville Hammered Metal Planter Stands User Manual

Model: AH2128 | Brand: BloomingVille

1. Product Overview

The Bloomingville Hammered Metal Planter Stands are a set of two artistic, golden plant pots designed to enhance indoor and outdoor living spaces. Crafted from solid iron with a hammered gold finish, these standing planters offer a sturdy and durable construction. The set includes one large and one small planter, each with its own integrated metal stand, providing a stylish and functional solution for displaying plants or decorative items.

Figure 1.1: Bloomingville Hammered Metal Planter Stands (Set of 2)

These planters are suitable for use with natural or faux plants and are designed to complement modern and contemporary home decor. Their versatile design allows for placement in various settings, including living rooms, bedrooms, dining areas, balconies, or gardens.

2. Setup Instructions

1. **Unboxing:** Carefully remove the planter stands from their packaging. Inspect both the large and small planters and their integrated stands for any signs of damage during transit.
2. **Placement:** Choose a stable, level surface for placement. Ensure the area is suitable for the intended use (indoor or outdoor) and can support the weight of the planter with a filled pot.
3. **Pot Insertion:** Place your desired plant pot directly into the hammered metal planter. The small planter is designed to hold an 8.5-inch pot, and the large planter is designed to hold a 10-inch pot. Ensure the pot sits securely within the planter.

3. Usage and Placement

The Bloomingville Hammered Metal Planter Stands are designed for versatile decorative use. They can be used to display potted plants, artificial florals, or other decorative items.

Figure 3.1: Example of Planter Placement in a Home Setting

- **Indoor Use:** Ideal for enhancing living rooms, bedrooms, dining areas, or hallways. Place them in corners, next to furniture, or as a centerpiece.
- **Outdoor Use:** Suitable for covered patios, balconies, or garden areas. While durable, prolonged exposure to harsh weather conditions may affect the finish.
- **Pot Compatibility:** The small planter accommodates pots up to 8.5 inches in diameter, and the large planter accommodates pots up to 10 inches in diameter.

4. Maintenance and Care

To ensure the longevity and appearance of your Bloomingville Hammered Metal Planter Stands, follow these care guidelines:

- **Cleaning:** Wipe the metal surfaces with a soft, dry cloth to remove dust. For more stubborn marks, use a slightly damp cloth and dry immediately. Avoid abrasive cleaners or harsh chemicals, as these can damage the hammered gold finish.
- **Moisture:** While the planters are made of iron, excessive moisture can lead to tarnishing or rust over time. If using live plants, ensure proper drainage for the inner pot to prevent water from accumulating at the bottom of the metal planter. Do not allow water to sit in the planter for extended periods.
- **Outdoor Exposure:** If used outdoors, place in a sheltered area to minimize exposure to rain and direct sunlight, which can help preserve the finish.
- **Handling:** Lift the planters by the base or the pot itself when moving to prevent strain on the stand structure.

5. Troubleshooting

Issue: Planter appears unstable or wobbly.

Solution: Ensure the planter is placed on a completely flat and level surface. Check if the inner pot is centered and balanced within the metal planter. Avoid placing on uneven flooring or thick carpets that may cause instability.

Issue: Finish appears dull or tarnished.

Solution: This can occur due to dust buildup or exposure to moisture. Clean the surface with a soft, dry cloth. For light tarnishing, a specialized metal polish for decorative items may be used, but test on an inconspicuous area first to ensure it does not damage the hammered gold finish.

Issue: Water accumulation inside the metal planter.

Solution: If using live plants, ensure the inner pot has adequate drainage holes and consider using a saucer or gravel layer at the bottom of the inner pot to elevate it slightly and prevent direct contact with standing water. Regularly check and empty any accumulated water to prevent damage to the planter and potential root rot for plants.

6. Product Specifications

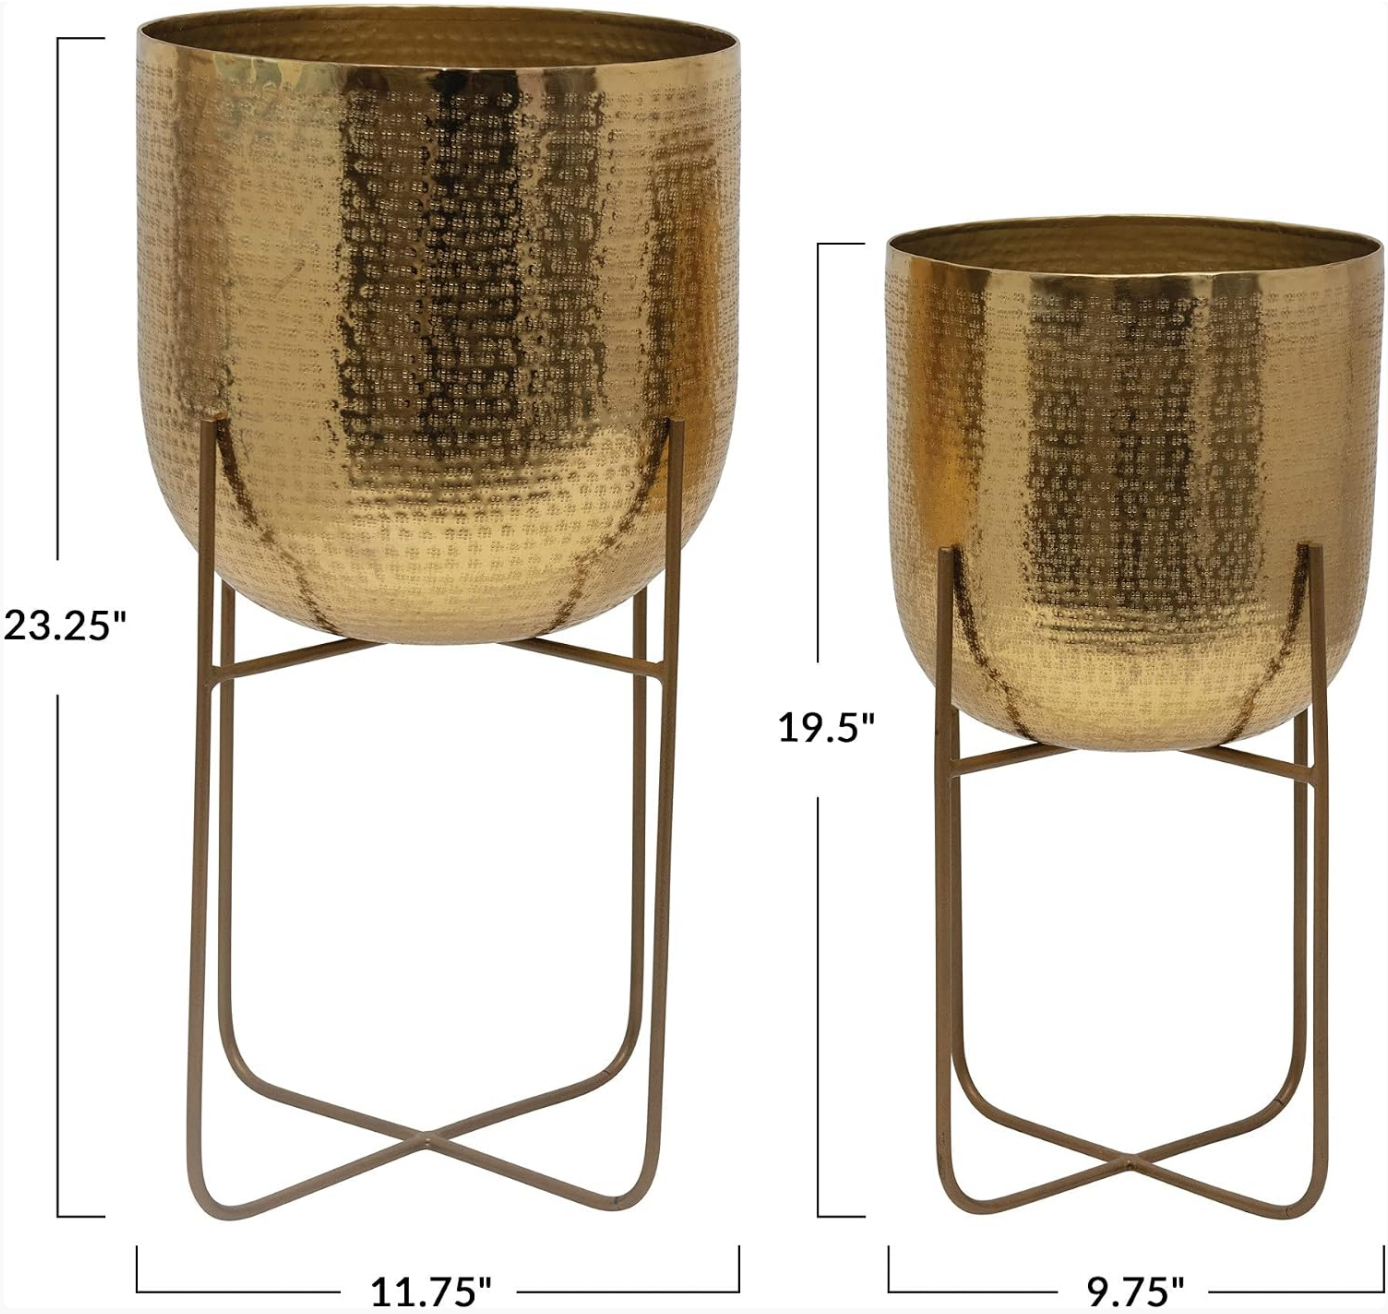

Figure 6.1: Planter Dimensions

Feature	Detail
Brand	BloomingVille
Model Number	AH2128
Color	Gold
Material	Metal Iron
Finish Type	Gold
Item Shape	Round
Number of Pieces	2 (One large, one small)
Small Planter Dimensions	9.75” (Round) x 19.5” (High)

Feature	Detail
