## AZLA SednaEarfit Crystal Standard

# AZLA SednaEarfit Crystal Standard Earbud Tips User Manual

Enhancing your audio experience with superior comfort and fit.

## INTRODUCTION

---

The AZLA SednaEarfit Crystal Standard earbud tips are designed to provide an optimal listening experience by improving comfort, noise isolation, and audio performance. Crafted from premium German Liquid Silicone Rubber (LSR), these tips offer a secure and comfortable fit for a wide range of wireless headphones.

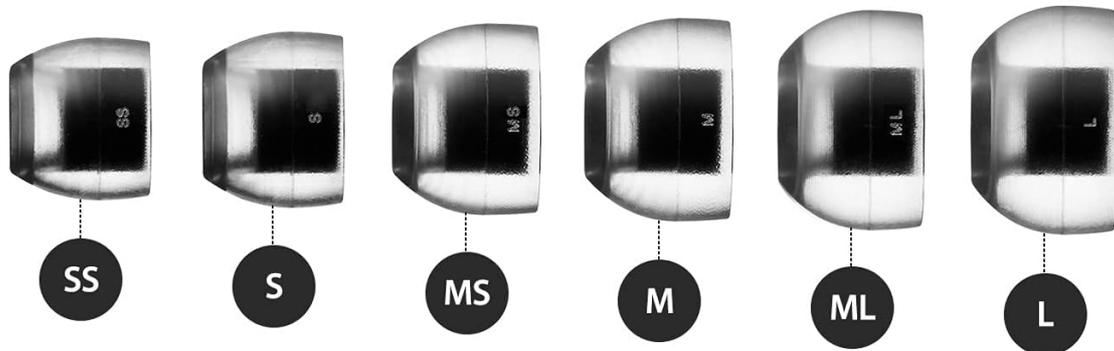

## SETUP AND INSTALLATION

---

### 1. Choosing the Correct Size

Selecting the appropriate ear tip size is crucial for comfort, sound quality, and noise cancellation. The SednaEarfit Crystal Standard tips are available in multiple sizes (SS, S, MS, M, ML, L) to accommodate various ear canal shapes and sizes. Refer to the sizing chart below to determine your ideal fit.

# SednaEarfit Crystal

	SS	S	MS	M	ML	L
size(mm)						
	Ø 10.4	Ø 11.2	Ø 11.9	Ø 12.6	Ø 13.3	Ø 14
	8.8 8					
	Ø 6.7 Ø 3.6					

Image: Sizing chart for SednaEarfit Crystal Standard ear tips, detailing diameter and height for each size (SS, S, MS, M, ML, L).

Consider the length of your earbud's eartip core to ensure compatibility. The SednaEarfit Crystal tips are designed for eartip core lengths between 4.4mm and 10.0mm.

Image: Diagram showing various eartip core lengths and compatible SednaEarfit models, including Crystal for TWS.

## 2. Attaching the Ear Tips

Gently remove your existing ear tips from your earbuds. Align the opening of the SednaEarfit Crystal Standard tip

with the nozzle of your earbud. Apply gentle, even pressure to push the tip onto the nozzle until it is securely seated. Ensure the tip is fully attached and not loose.

## Compatible with SHURE earbuds

with adapter included

**EAR TIPS ONLY,  
DOES NOT Include Earbuds**

### 3. Charging Case Compatibility

The SednaEarfit Crystal Standard tips are designed to fit within most earbud charging cases, including the Sony WF-1000XM4 case, without interference. After installation, place your earbuds in their charging case to confirm proper fit and charging contact.

### OPERATING (USAGE)

Once installed, the SednaEarfit Crystal Standard tips provide a secure and comfortable seal, which is essential for optimal audio performance and noise cancellation. The unique design ensures they stay in place, even during physical activities.

These eartips are engineered to maintain superior sound and audio performance, allowing you to experience rich, crystal-clear sound without loss. The enhanced seal contributes to effective passive noise isolation, complementing your earbud's active noise cancellation features.

### MAINTENANCE

To ensure hygiene and maintain optimal performance, clean your SednaEarfit Crystal Standard ear tips regularly. Due to their slightly sticky surface, they may attract dust over time.

#### Cleaning Instructions:

1. Gently remove the ear tips from your earbuds.
2. Wash the ear tips with warm water and a mild soap.
3. Rinse thoroughly to remove all soap residue.

4. Allow the ear tips to air dry completely before reattaching them to your earbuds.

Made from durable Liquid Silicone Rubber (LSR), these ear tips are built to last, providing a long-lasting solution for your earbud needs with proper care.

## TROUBLESHOOTING

### Poor Fit or Reduced Noise Cancellation:

- **Re-evaluate Size:** If you experience discomfort, sound leakage, or reduced noise cancellation, your ear tip size may be incorrect. Refer to the sizing chart in the Setup section and consider trying a different size. A proper seal is critical for performance.
- **Ensure Proper Seal:** Gently insert the earbud into your ear, rotating slightly until a comfortable and secure seal is achieved. You should notice a significant reduction in ambient noise.
- **Clean Ear Tips:** Accumulation of earwax or debris can affect the seal. Clean the ear tips as described in the Maintenance section.

### Sound Quality Issues:

- **Check Fit:** An improper seal can lead to a lack of bass or overall diminished sound quality. Ensure the ear tips are securely fitted in your ears and on the earbud nozzles.
- **Earbud Settings:** Some earbuds have companion apps with fit tests or EQ settings. Utilize these to optimize your audio experience with the new tips.

## SPECIFICATIONS

<b>Brand</b>	AZLA
<b>Model</b>	SednaEarfit Crystal Standard
<b>Material</b>	Liquid Silicone Rubber (LSR)
<b>Available Sizes</b>	SS, S, MS, M, ML, L
