UPBRIGHT CH900WM

UpBright 9.6V AC/DC Adapter Instruction Manual

For Shark UltraCyclone Pro Cordless Handheld Vacuums (Models CH900WM, CH900WM14, CH900WMU4, CH900, CH900C)

INTRODUCTION

This manual provides essential information for the safe and effective use of your UpBright 9.6V AC/DC Adapter. This adapter is specifically designed to power and charge compatible Shark UltraCyclone Pro Cordless Handheld Vacuum models, including CH900WM, CH900WM14, CH900WMU4, CH900, and CH900C. Please read this manual thoroughly before using the product.

IMPORTANT SAFETY INFORMATION

- Read all instructions before using the adapter.
- Keep the adapter away from water or damp environments. Do not use with wet hands.
- Do not disassemble, modify, or attempt to repair the adapter. Refer servicing to qualified personnel.
- Use only with the specified Shark UltraCyclone Pro Cordless Handheld Vacuum models. Using with incompatible devices may cause damage.
- Unplug the adapter from the wall outlet when not in use or during electrical storms.
- Ensure the adapter is properly ventilated during use. Do not cover it.
- The adapter features built-in Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to ensure safe operation.

SETUP

1. **Inspect the Adapter:** Before first use, visually inspect the adapter and cable for any signs of damage. Do not use if damaged.
2. **Connect to Vacuum:** Insert the barrel round plug tip of the adapter into the charging port of your Shark UltraCyclone Pro Cordless Handheld Vacuum. Ensure the connection is firm and secure.
3. **Plug into Outlet:** Plug the AC adapter into a standard wall electrical outlet. The adapter is designed for worldwide input voltage (100-240VAC, 50/60Hz).

OPERATING INSTRUCTIONS

Once properly connected, the UpBright 9.6V AC/DC Adapter will begin to supply power to your Shark UltraCyclone Pro Cordless Handheld Vacuum, initiating the charging process for its 7.2V Li-ion battery. The vacuum's indicator lights (if present) will typically show the charging status.

- **Charging Time:** Charging time may vary depending on the battery's current charge level and overall health.
- **Battery Life:** Please note that rechargeable batteries do not last indefinitely. The average lifespan of a battery is 1 to 3 years. If your vacuum's battery is old or faulty, it may not accept a charge, which is a battery issue, not a defect of the charger.

UpBright AC Adapter Power Supply Compatible with:

MAINTENANCE

- **Cleaning:** Wipe the adapter with a dry, soft cloth. Do not use liquid cleaners or solvents.
- **Cable Care:** Avoid sharply bending, twisting, or stressing the power cable, especially near the connectors. This can prevent internal wire damage.
- **Storage:** Store the adapter in a cool, dry place when not in use. Keep it away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

- **Adapter Not Charging:**
 - Ensure all connections are secure between the adapter, the vacuum, and the wall outlet.
 - Test the wall outlet with another device to confirm it is functional.
 - Verify that your vacuum's battery is not at the end of its lifespan. An old or faulty battery may not accept a charge.
- **Adapter Does Not Fit:**
 - Confirm that your Shark UltraCyclone Pro vacuum model is listed as compatible (CH900WM, CH900WM14, CH900WMU4, CH900, CH900C). This adapter has a specific barrel round plug tip.
 - If your device is not clearly listed, the adapter may not fit due to variations in charging port dimensions.
