## Braun 4210201394792

# Braun Shaver Head Replacement Part 94M User Manual

Model: 94M (4210201394792)

Brand: Braun

## INTRODUCTION

---

This user manual provides essential information for the proper installation, operation, and maintenance of your Braun Shaver Head Replacement Part 94M. This genuine replacement head is designed for Braun Series 9 Pro and Series 9 electric razors, ensuring continued peak performance and a comfortable shaving experience.

## SAFETY INFORMATION

Please read and understand all safety instructions before using the product. Failure to do so may result in injury or damage.

- Avoid use near water.
- Do not charge while in use.
- Clean after each use to prevent bacterial growth.
- Always hold the shaver away from your face when turning it on or off to avoid potential cuts.
- If you experience skin irritation, discontinue use and consult a dermatologist.

## SETUP: REPLACING YOUR SHAVER HEAD

The Braun Shaver Head Replacement Part 94M is designed for easy installation. Follow these steps to replace your old shaver head:

1. Ensure your Braun Series 9 or Series 9 Pro electric razor is turned off and unplugged from any power source.
2. Grip the sides of the existing shaver head and gently pull upwards to detach it from the shaver body. It should click off easily.
3. Align the new Braun Shaver Head Replacement Part 94M with the shaver body.
4. Press down firmly until you hear a click, indicating that the new head is securely attached.
5. Your shaver is now ready for use with the new head.

## OPERATING INSTRUCTIONS

The Braun Shaver Head 94M is designed to provide an efficient and gentle shave. It features Braun's innovative ProLift trimmer, which captures and cuts hair effectively, even a 7-day beard.

- This shaver head supports both wet and dry shaving. For a refreshing shave, use with foam or gel. For convenience, use dry.
- Move the shaver in straight, overlapping strokes against the direction of hair growth.
- Apply gentle pressure; excessive pressure is not necessary and may cause irritation.
- For detailed operating instructions specific to your Braun Series 9 or Series 9 Pro electric razor, please refer to the original manual provided with your shaver.

Cuts effortlessly  
through even  
**7-day beards**

**ProBlades**  
shave hair  
even below  
0.05 mm

**Easy-to-replace**  
with just one click

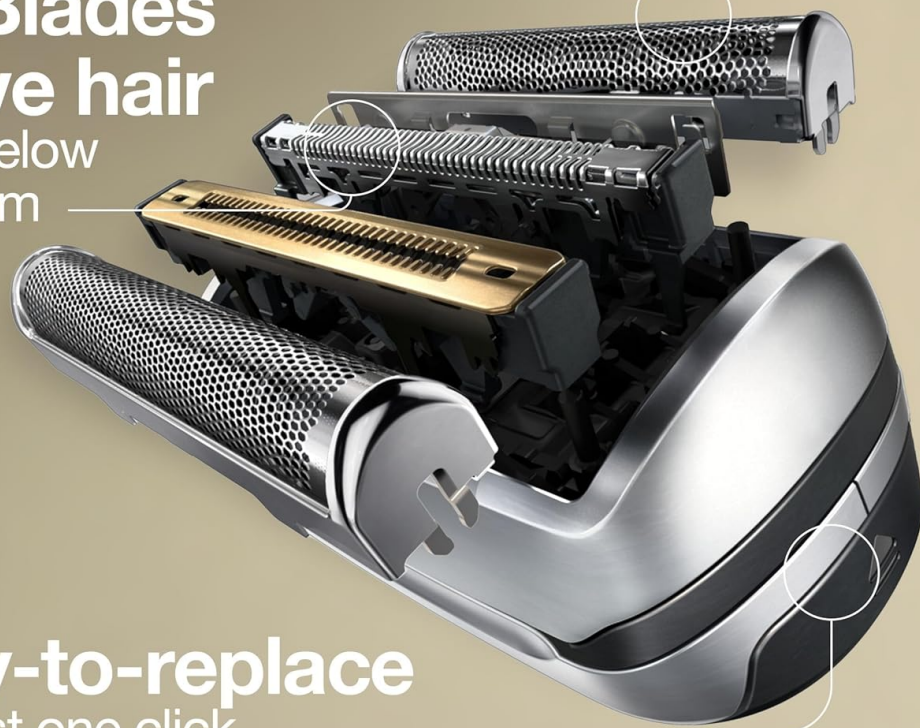

Figure 4: The ProBlades are designed to shave hair even below 0.05 mm, cutting effortlessly through thick beards.

## MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your shaver head.

- **Daily Cleaning:** After each use, rinse the shaver head under warm running water to remove hair and debris. For a more thorough clean, use a cleaning brush (if provided with your shaver) to remove stubborn particles.
- **Deep Cleaning (with Clean & Renew Station):** If your shaver model is compatible with a Braun Clean & Renew station, use it regularly for automatic cleaning, lubrication, and charging. Replace the Clean & Renew refill cartridges every two months for best results.
- **Replacement Frequency:** For optimal performance and to avoid skin irritation, it is recommended to replace your Braun Shaver Head 94M every 18 months.

**Replace every  
18 months**  
to maintain  
close shave and  
avoid irritation

Figure 5: Recommended replacement interval for the shaver head is every 18 months to maintain a close shave and prevent irritation.

## TROUBLESHOOTING

If you encounter any issues with your Braun Shaver Head 94M, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Reduced Shaving Performance	Worn out blades/foils, accumulated hair/debris.	Clean the shaver head thoroughly. If performance does not improve, replace the shaver head (recommended every 18 months).
Skin Irritation	Dull blades, improper shaving technique, sensitive skin.	Ensure the shaver head is clean. Try wet shaving with foam/gel. If irritation persists, consider replacing the head or consulting a dermatologist.
Head Not Attaching Securely	Incorrect alignment, debris in connection points.	Ensure the head is correctly aligned with the shaver body. Check for and remove any debris from the connection points.

If the issue persists after attempting these solutions, please refer to the full shaver manual or contact Braun customer support.
