## VEEKTOMX VT201

# VEEKTOMX Power Bank User Manual

Model: VT201

### INTRODUCTION

This manual provides essential information for the safe and efficient operation of your VEEKTOMX 20000mAh Power Bank. This portable charger features built-in cables (USB Micro, USB C, and iPhone compatible) and an LED display, designed for convenient charging of various smart devices including iPhones, iPads, Samsung, and Android devices. Please read this manual thoroughly before use.

## SETUP

### What's Included

Upon unboxing, verify that the following items are present:

- 1 x VEEKTOMX 20000mAh Power Bank
- 1 x User Manual

### Initial Charging of the Power Bank

Before first use, it is recommended to fully charge your power bank. The power bank can be recharged using two methods:

1. **Using the Built-in USB-A Input Cable:** Connect the integrated USB-A cable from the power bank to a USB wall adapter or a computer's USB port.
2. **Using the USB-C Input Port:** Connect a USB-C cable (not included) to the power bank's USB-C port and then to a compatible USB-C wall adapter.

The LED display will show the charging progress, indicating the battery percentage as it charges.

## OPERATING INSTRUCTIONS

### Charging Your Devices

The VEEKTOMX Power Bank is equipped with multiple output options to charge up to five devices simultaneously:

- **Built-in Cables:**

- iPhone compatible cable
- USB-C output cable
- Micro USB output cable

- **Additional Ports:**

- One USB-A output port
- One USB-C output port (shared with input)

Each output port and cable provides a maximum of 12W (5V/2.4A) for efficient charging. Simply connect your device to the appropriate cable or port on the power bank. The power bank will automatically begin charging your device.

# Charging 5 Devices Simultaneously

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your power bank.

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Avoid using liquid cleaners or abrasive

materials.

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the power bank or subjecting it to strong impacts.
- **Moisture:** Keep the power bank away from water and high humidity.

## TROUBLESHOOTING

If you encounter issues with your VEEKTOMX Power Bank, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Power bank not charging devices.	Low battery on power bank; incorrect cable connection; device not compatible.	Recharge the power bank fully. Ensure cables are securely connected. Verify device compatibility.
Power bank not recharging itself.	Faulty charging cable/adaptor; loose connection.	Try a different charging cable and/or wall adapter. Ensure connections are firm.
LED display is not working.	Power bank is completely drained; internal malfunction.	Attempt to recharge the power bank. If issue persists, contact customer support.
Slow charging.	Using a low-power adapter; multiple devices charging simultaneously.	Use a higher-wattage wall adapter for recharging the power bank. Disconnect some devices if charging multiple.

The VEEKTOMX Power Bank includes a Multi-Protect safety system with built-in safeguards to protect your devices against excessive current, overheating, and overcharging. If problems persist, please refer to the Warranty and Support section.

## SPECIFICATIONS

Feature	Detail
Model Number	VT201
