4. MAINTENANCE

To ensure the longevity and optimal performance of your VEEKTOMX power bank, follow these maintenance guidelines:

- Keep the device dry and away from moisture.
- Avoid exposing the power bank to extreme temperatures (hot or cold).
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use for extended periods.

5. TROUBLESHOOTING

If you encounter issues with your VEEKTOMX power bank, refer to the following common solutions:

- **Device not charging:**
 - Ensure the power bank has sufficient charge (check LED display).
 - Verify that the charging cable is securely connected to both the power bank and your device.
 - Try a different cable or port on the power bank.

- **Slow charging:**

- Ensure your device supports fast charging for optimal speeds.
- Avoid charging multiple devices simultaneously if you require maximum speed for one device.
- Check the quality of your charging cable; a damaged or low-quality cable can reduce charging speed.

- **Power bank not recharging:**

- Ensure the power source (USB adapter, computer) is functioning correctly.
- Try a different charging cable or input port on the power bank.
