

ANGENIL Mini-Silicone-Pad

ANGENIL Heat Resistant Silicone Mat and Travel Pouch Instruction Manual

Brand: ANGENIL | Model: Mini-Silicone-Pad

1. PRODUCT OVERVIEW

The ANGENIL Heat Resistant Silicone Mat is a versatile accessory designed to protect surfaces from the heat of hair styling tools and provide a convenient storage solution for travel. Made from food-grade silicone, it offers excellent heat resistance and a non-slip surface.

2. FEATURES

- **Dual Functionality:** Serves as both a heat-resistant mat for countertops and a travel pouch for hot styling tools.
- **High Heat Resistance:** Withstands temperatures ranging from -40°F to 482°F (-40°C to 250°C), effectively preventing heat damage to surfaces.
- **Skid-Proof Design:** Features a unique wave texture that helps keep hot tools securely in place, preventing accidental slips.
- **Durable and Safe Material:** Constructed from food-grade silicone, ensuring it is non-toxic, odorless, and environmentally friendly.
- **Flexible and Portable:** Its flexible design allows for easy rolling and compact storage, ideal for travel.
- **Easy to Clean:** Simply wash with water to maintain cleanliness.

3. SETUP: USING AS A HEAT RESISTANT MAT

1. Unroll the ANGENIL Silicone Mat completely and lay it flat on any desired surface, such as a countertop, vanity, or table.
2. Ensure the mat is positioned securely and provides adequate coverage for your hot styling tool.
3. Place your hot curling iron, hair straightener, or flat iron directly onto the mat. The mat will protect the surface from heat damage.

4. OPERATING: USING AS A TRAVEL POUCH

1. After using your hot styling tool, ensure it is turned off and unplugged.
2. Place the hot tool onto the ANGENIL Silicone Mat.
3. Carefully wrap the mat around the hot tool, ensuring the heated parts are fully enclosed.
4. Utilize the integrated loop to secure the wrapped mat, transforming it into a compact and heat-safe travel pouch. This allows for immediate storage and transport without waiting for the tool to cool down.

Video: This video demonstrates the ANGENIL Heat Resistant Silicone Mat's dual functionality, showing how it can be used as a protective surface for hot hair tools and then easily converted into a secure travel pouch by wrapping it around the tool and fastening the loop.

5. MAINTENANCE

The ANGENIL Heat Resistant Silicone Mat is designed for easy cleaning. Simply wash it with water to remove any residue or dust. It is also dishwasher safe for convenience.

6. SAFETY INFORMATION

Always keep the hair iron away from water and flammable materials. Allow the device to cool down before touching or storing it. Unplug the device after use. Be cautious to avoid contact with skin to prevent burns.

7. TROUBLESHOOTING

This product is a passive accessory and does not have electronic components. If you encounter any issues related to its heat resistance or material integrity, please refer to the contact information in the Support section.
