- **Fabric Cleaning:** All fabrics on the PETIQUE Chinook stroller are removable and washable. Remove fabric components and hand wash with mild soap and cold water. Air dry thoroughly before reattaching.
- **Frame Cleaning:** Wipe the aluminum frame with a damp cloth and mild soap. Dry immediately to prevent rust.
- **Wheel Maintenance:** Periodically check the EVA tires for debris. The quick-release rear wheels can be easily removed for cleaning or inspection.
- **Storage:** Store the stroller in a dry, cool place away from direct sunlight when not in use.

6. TROUBLESHOOTING

- **Stroller does not fold/unfold smoothly:**
Ensure all locking mechanisms are disengaged before folding. Check for any obstructions in the folding joints. Apply a silicone-based lubricant to moving parts if necessary.
- **Wheels are squeaky or stiff:**
Clean any dirt or debris from the wheel axles and bearings. Apply a small amount of silicone lubricant to the axle points. Ensure the wheel locks are disengaged if the wheel is stiff.
- **Stroller pulls to one side:**
Check that all wheels are securely attached and properly aligned. Ensure the front wheel is not locked if you intend for it to swivel.

- **Pet escapes from stroller:**

Always use the interior leash clips to secure your pet's harness or collar. Ensure the canopy is fully zipped and secured if your pet is prone to jumping.
