## VEEKTOMX VT103

# VEEKTOMX Mini Power Bank 10000mAh User Manual

Model: VT103

## 1. PRODUCT OVERVIEW

The VEEKTOMX Mini Power Bank is a compact and lightweight external power bank designed for convenient on-the-go charging. It features a 10,000 mAh capacity and supports PD 22.5W fast charging, allowing you to quickly power up your devices.

Figure 1: The VEEKTOMX Mini Power Bank, demonstrating its compact size when held in hand. This power bank is remarkably compact and lightweight, measuring just 4.2 x 2.7 x 0.6 inches and weighing only 5.8 oz. It easily slips into your pocket, purse, or backpack, making it an ideal travel essential.

## Smallest & Lightest

## 2. WHAT'S IN THE BOX

- 10000mAh Power Bank x1
- User Manual x 1
- 30cm USB-A to C Cable x1

### 3. SETUP

#### Charging the Power Bank

Before first use, it is recommended to fully charge your VEEKTOMX Mini Power Bank. The power bank itself recharges from 0% to full capacity in just 2.5~3 hours via a 9V/2A adapter (not included). Use the provided USB-A to C cable or a compatible USB-C cable to charge the power bank.

Figure 3: Detail of the power bank's ports, including USB-C for input/output, USB-A for output, and Micro-USB for input. The smart digital LED battery level indicator on the power bank keeps you informed of the remaining power

and charging status, ensuring you're always aware of your battery bank's status at a glance.

## 4. OPERATING INSTRUCTIONS

### Charging Your Devices

The VEEKTOMX Mini Power Bank features dual PD 3.0 and QC 3.0 fast charging technologies, delivering up to 22.5W of max output power. This allows you to charge your devices up to 2 times faster compared to standard chargers.

## 5. MAINTENANCE

---

To ensure the longevity and optimal performance of your VEEKTOMX Mini Power Bank, follow these maintenance guidelines:

- **Keep Dry:** Avoid exposing the power bank to water or excessive humidity.
- **Avoid Extreme Temperatures:** Do not store or use the power bank in very hot or cold environments.
- **Clean Gently:** Use a soft, dry cloth to clean the exterior. Avoid harsh chemicals.
- **Proper Storage:** If storing for an extended period, charge the power bank to about 50% and store it in a cool, dry place.
- **Safety First:** The power bank features a constantly upgraded intelligent chip with multi-layered protection against overcurrent, overcharging, overheating, and short circuits. It also has temperature-sensing technology that automatically stops charging in extreme heat.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your VEEKTOMX Mini Power Bank, please refer to the following common solutions:

- **Device Not Charging:** Ensure the power bank is charged. Check that the charging cable is securely connected to both the power bank and your device. Try a different cable or device to rule out compatibility issues.
- **Slow Charging:** Verify that your device supports fast charging protocols (PD 3.0/QC 3.0) if you expect fast charging speeds. Ensure the cable used is also rated for fast charging.
- **LED Display Not Working:** Press the power button to activate the display. If it remains off, the unit may be fully discharged or require service.
- **Power Bank Not Recharging:** Ensure the charging adapter is working correctly and provides sufficient power (e.g., 9V/2A). Try a different cable or power source.

For further assistance, please contact VEEKTOMX customer support.
