OPERATING INSTRUCTIONS

Basic Operation

- **Left Button:** Primary click function, typically used for selecting items, opening files, or interacting with software.
- **Right Button:** Secondary click function, usually opens context menus or provides additional options.
- **Scroll Wheel (Middle Button):** Scroll up or down to navigate documents and web pages. Pressing the scroll wheel acts as a middle-click button, often used for opening links in new tabs or auto-scrolling.

DPI Adjustment

The Bytech BYMSWR104BK Gaming Mouse features adjustable DPI settings. While specific buttons for DPI adjustment are not explicitly listed on the packaging, many gaming mice allow DPI changes through a dedicated button (often located near the scroll wheel) or through software. Refer to your computer's mouse settings or Bytech's official website for advanced customization options if available.

LED Backlight

The mouse features a dynamic multi-color LED backlight with 7 different color modes. These lights will automatically cycle through the modes once the mouse is connected and powered on. There is no manual control for changing modes on the mouse itself.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the bottom of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.
