3. ASSEMBLY INSTRUCTIONS

Assembly of the LOKEME Portable Closet is designed to be quick and easy, requiring no additional tools. Follow these steps carefully:

1. **Unpack and Sort:** Lay out all metal pipes, plastic connectors, and fabric parts. Group similar items together to simplify the process.
2. **Build the Base Frame:** Connect the shortest metal pipes with the appropriate plastic connectors to form the rectangular base of the closet. Ensure all pipes are securely inserted into the connector holes.
3. **Install Lower Shelves:** Place the fabric shelves onto the designated pipe sections of the base frame.
4. **Erect Vertical Supports:** Insert longer metal pipes into the vertical openings of the plastic connectors to build the first level of height.
5. **Add Middle Sections and Shelves:** Continue adding horizontal pipes and connectors to create the

framework for the middle shelves and hanging sections. Install the fabric shelves as you build upwards.

6. **Attach Hanging Rods:** Secure the hanging rods into their designated slots within the frame structure.
7. **Complete Upper Frame:** Build the top section of the frame using the remaining pipes and connectors, ensuring a stable structure.
8. **Drape Fabric Cover:** Carefully place the non-woven fabric cover over the assembled frame. Align the zippers and secure the cover around the entire structure.

4. OPERATION AND USAGE

Once assembled, your LOKEME Portable Closet is ready for use. Utilize the various compartments to organize your belongings efficiently.

- **Hanging Section:** Use the two hanging rods for garments that require hanging, such as shirts, dresses, coats, and suits.
- **Storage Shelves:** The seven fabric shelves are perfect for folded clothes, linens, shoes, bags, and other accessories. Distribute weight evenly across the shelves.
- **Dust Protection:** Keep the fabric cover zipped to protect your clothes from dust and maintain their freshness.

5. CARE AND MAINTENANCE

To ensure the longevity and cleanliness of your portable closet, follow these simple care instructions:

- **Cleaning:** Wipe the non-woven fabric cover and shelves with a dry cloth to remove dust and dirt. For stubborn spots, a slightly damp cloth can be used, but ensure the fabric dries completely to prevent mildew.
- **Ventilation:** Periodically open the closet cover to allow for air circulation, especially if storing items for extended periods.
- **Avoid Overloading:** Do not exceed the weight capacity of the hanging rods or shelves to prevent structural damage.
- **Sunlight Exposure:** While the fabric is durable, prolonged direct sunlight exposure may cause fading over time.

6. SAFETY INFORMATION

Please read and adhere to the following safety guidelines to prevent injury or damage to the product:

- **Secure Assembly:** Ensure all metal pipes are securely inserted into the plastic connector holes during assembly. A loose connection can compromise stability.
- **Handling:** Be cautious while assembling and disassembling the closet to avoid pinching fingers or other injuries.
- **Weight Distribution:** To prevent tip-over, do not overfill the closet. Distribute the weight of clothes and items evenly across all hanging rods and shelves.
- **Stability:** If using the closet for long-term storage of heavy garments, consider securing it to a wall using appropriate anchors (not included) to enhance stability.
- **Children and Pets:** Keep children and pets away from the closet during assembly to prevent accidents.

7. TROUBLESHOOTING

If you encounter any issues with your LOKEME Portable Closet, refer to the common problems and solutions below:

- **Closet is Unstable/Wobbly:**
Solution: Check all pipe connections to ensure they are fully inserted into the plastic connectors. Re-tighten any loose connections. Ensure the closet is placed on a flat, level surface.
- **Missing Parts:**
Solution: Double-check the packaging. If parts are genuinely missing, contact LOKEME customer support with your purchase details. Additional components can be provided.
- **Fabric Cover Does Not Fit Properly:**
Solution: Ensure the frame is assembled correctly according to the manual's dimensions. Sometimes, slight adjustments to the frame's alignment can help the cover fit better.
- **Zipper Issues:**
Solution: If the zipper is stuck, try gently moving it back and forth. Ensure no fabric is caught in the zipper teeth. Avoid forcing the zipper.
