## 4. MAINTENANCE

## 4.1 Cleaning

To clean the player, use a soft, dry cloth. For the screen, a slightly damp, lint-free cloth can be used. Avoid abrasive cleaners or solvents.

## 4.2 Disc Handling

Always handle discs by their edges. Store discs in their cases to prevent scratches and dust accumulation. Do not expose discs to direct sunlight or extreme temperatures.

## 4.3 Battery Care

To prolong battery life, fully charge the device before first use. If storing the player for an extended period, charge it to about 50% and recharge every few months.

# 5. TROUBLESHOOTING

---

## 5.1 No Power / Not Charging

- Ensure the AC adapter or car charger is securely connected to both the player and the power source.
- Verify the power outlet or car cigarette lighter is functional.
- If the charging indicator light does not illuminate, try a different power source or contact support.

## 5.2 Remote Control Unresponsive

- Check and replace the batteries in the remote control.
- Ensure there are no obstructions between the remote and the player's IR receiver.
- Point the remote directly at the player's IR receiver.

## 5.3 Poor Sound Quality

- Adjust the volume on the player and ensure it is not muted.
- If using external speakers or headphones, ensure they are properly connected and functional.
- For improved audio, consider connecting external speakers to the player's headphone jack or AV output.

## 5.4 Image Quality Not as Expected

- The screen resolution is 1024x600 pixels. Image quality may vary depending on the source material.
- Ensure the disc or digital media file is clean and undamaged.
- Adjust brightness, contrast, and color settings via the player's menu.
