Basil MIK Stick (Model 70678)

Basil MIK Stick (Model 70678) Instruction Manual

For MIK Adapter Plate

INTRODUCTION

The Basil MIK Stick is a practical tool designed to enhance the functionality of your bicycle accessories equipped with a MIK adapter plate. This stick facilitates the quick and easy attachment and detachment of MIK-compatible bike baskets or double panniers to your bicycle rack, provided the rack features MIK profiles or a MIK rack plate.

This tool is intended as an aid for convenience and does not offer protection against theft. Its foldable design allows for easy storage, such as on a key ring, reducing the likelihood of misplacement. The MIK Stick is available in grey.

WHAT'S IN THE BOX

- 1 x MIK Stick

SETUP & INSTALLATION

The MIK Stick is designed for seamless integration with MIK adapter plates (e.g., model 70171) and MIK-compatible bicycle racks. Ensure your bicycle rack has MIK profiles or a MIK rack plate for compatibility.

Attaching an Accessory:

1. Align the MIK adapter plate on your accessory (basket or pannier) with the MIK profiles on your bicycle rack.
2. Press the accessory firmly onto the rack until you hear a 'click', indicating it is securely locked in

place.

Detaching an Accessory:

1. Locate the locking mechanism on the MIK adapter plate, usually a small button or lever.
2. Insert the MIK Stick into the designated slot on the locking mechanism.
3. Push or pull the MIK Stick as indicated by the mechanism to release the lock.
4. Gently lift the accessory off the bicycle rack.

OPERATING INSTRUCTIONS

The MIK Stick is a straightforward tool. Its primary function is to engage the release mechanism on

MIK adapter plates. The stick is foldable, allowing it to be conveniently carried on a key ring or stored in a small pocket.

Always ensure the MIK Stick is fully inserted into the adapter plate's release slot before attempting to detach an accessory to prevent damage to the mechanism.

MAINTENANCE

To ensure the longevity and proper function of your MIK Stick, keep it clean and free from dirt or debris. Wipe it with a damp cloth if necessary. Avoid using harsh chemicals that could degrade the nylon material.

Store the MIK Stick in a dry place when not in use. Periodically check the stick for any signs of wear or damage. If the stick becomes damaged, replace it to ensure safe and effective operation of your MIK system.

TROUBLESHOOTING

If you encounter difficulty attaching or detaching an accessory with the MIK Stick:

- **Accessory not clicking into place:** Ensure the MIK adapter plate on your accessory is correctly aligned with the MIK profiles on your bicycle rack. Check for any obstructions or debris in the mechanism.
- **Difficulty detaching:** Verify that the MIK Stick is fully inserted into the release slot and that you are applying sufficient, steady pressure to disengage the lock. Avoid forcing the mechanism.
- **MIK Stick feels loose or damaged:** Discontinue use and inspect the MIK Stick for any cracks, bends, or wear. A damaged stick may not properly engage the release mechanism and should be replaced.

SPECIFICATIONS

- **Brand:** Basil
- **Model Name:** MIK Stick
- **Model Number:** 70678
- **Color:** Grey
- **Material:** Synthetic (Nylon)
- **Item Weight:** 50 Grams
- **Product Dimensions:** 0.98"W x 0.51"H (approx. 4.33 x 0.79 x 0.39 inches overall)
- **Style:** Bag Accessories
- **Suggested Users:** Unisex-adult
