3. SAFETY INFORMATION

- Always unplug the decoration when not in use or during assembly/disassembly.
- Ensure all electrical connections are secure and protected from moisture, especially when used outdoors.
- Do not overload electrical circuits.
- Use the provided ground stakes to firmly anchor the deer to prevent tipping, especially in windy conditions.
- Keep away from open flames or heat sources.
- This product is not a toy. Keep out of reach of small children.

4. SETUP AND ASSEMBLY

The JOIEDOMI Lighted Christmas Deer Family Set is designed for easy assembly. Follow these steps for proper setup:

1. **Unpack Components:** Carefully remove all parts from the packaging. It is recommended to assemble the decorations outdoors to minimize glitter shedding indoors.

2. **Assemble the Buck:** Refer to the included instruction sheet for specific diagrams. Attach the antlers to the buck's head.
3. **Assemble the Doe and Fawn:** Refer to the included instruction sheet for specific diagrams. Attach the heads to the bodies of the doe and fawn.
4. **Secure Connections:** Use the provided zip ties to firmly connect all body parts and ensure the structure is stable.
5. **Connect Lights:** Ensure all pre-installed LED light strands are properly connected to each other and to the main power adapter.
6. **Position and Anchor:** Place the assembled deer in your desired outdoor location. Use the 12 metal ground stakes to firmly secure each deer to the ground, inserting four stakes per deer.

6. MAINTENANCE

- **Cleaning:** To clean the deer, gently wipe with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or electrical components.
- **Storage:** When the holiday season is over, carefully disassemble the deer set. Store all components, including stakes and zip ties, in their original packaging or a suitable storage container in a cool, dry place away from direct sunlight and extreme temperatures.

- **Inspection:** Before each use, inspect the entire set for any signs of damage, such as frayed wires, broken connections, or damaged rattan. Do not use if any damage is found.

7. TROUBLESHOOTING

If you encounter any issues with your Lighted Christmas Deer Family Set, please refer to the following troubleshooting tips:

- **Lights Not Illuminating:**
 - Check that the power adapter is securely plugged into a functional electrical outlet.
 - Ensure all light strand connections between the deer are firm.
 - Inspect the entire length of the wiring for any cuts, pinches, or damage.
- **Deer Are Unstable/Tipping:**
 - Verify that all structural components are securely fastened with the provided zip ties.
 - Ensure all 12 metal ground stakes are fully inserted into the ground.
 - In areas prone to strong winds, consider adding additional anchoring methods (not included) for enhanced stability.
- **Glitter Shedding:**
 - Some glitter shedding is a natural characteristic of the product's design.
 - Assembling the product outdoors can help contain any initial glitter fallout.
