# Aipsun Model 9206 Black Modern LED Wall Sconce Instruction Manual

Brand: Aipsun | Model: 9206

## 1. PRODUCT OVERVIEW

The Aipsun Model 9206 is a modern, hardwired LED wall sconce designed for indoor use. It features an up and down light design, providing ambient illumination suitable for various rooms such as living rooms, bedrooms, hallways, corridors, and conservatories. Constructed from high-quality black aluminum, this fixture offers durability and a sleek aesthetic. It comes with energy-saving, non-flickering 9W LED G9 bulbs (3000K warm white) that are replaceable.

- **Soft and Homely Illumination:** Supplied with energy-saving, non-flickering 9W LED G9 bulbs (3000K warm white). Bulbs are replaceable, supporting a maximum of 40W.
- **Modern Design:** Ideal for living rooms, kitchens, dining rooms, bedrooms, stairs, and hallways. Made from high-quality aluminum with a matte black finish.
- **High-Quality Material:** Black aluminum frame ensures strong corrosion resistance, preventing rust and fading. Double output light provides high light transmittance, softening illumination for eye comfort.
- **Easy to Install:** Designed to fit US standard junction boxes. The sconces are easy to assemble, with complete installation achievable in three steps. All necessary fittings are included.

## 2. SAFETY INFORMATION

- Always cut off the main power supply at the circuit breaker before installation, maintenance, or bulb replacement.
- Consult a qualified electrician if you are unsure about the installation process.
- Ensure all electrical connections are secure and comply with local electrical codes.
- This fixture is designed for indoor use only. Do not expose to moisture or outdoor elements.
- Do not exceed the maximum wattage of 40W for replaceable G9 bulbs.

- Handle bulbs with care, preferably with gloves, to avoid transferring oils that can reduce bulb life.

### 3. PACKAGE CONTENTS

---

Verify that all components are present and undamaged before beginning installation.

- Aipsun Wall Sconce Fixture (2 units)
- G9 LED Bulbs (2 units, 3000K Warm White)
- Mounting Hardware (screws, wire nuts, circular mounting bracket)

Specific Uses	Indoor use only
Power Source	Hardwired
Installation Type	Flush Mount
Special Feature	Hardwired, Instant On, Not Dimmable, Replaceable G9 Bulbs
Light Source Type	LED
Voltage	110 Volts
Light Color	Warm White (3000 Kelvin)
Wattage	9 watts
Bulb Base	G9
Brightness	900 Lumen
Item Weight	1.21 Pounds

### 5. SETUP AND INSTALLATION

---

Please read all instructions carefully before installation. Ensure power is turned off at the circuit breaker before proceeding.

1. **Prepare for Installation:** Cut off the power at the main circuit breaker. It is recommended to wear gloves

during installation for safety.

2. **Mount the Bracket:** Fix the circular mounting bracket onto your standard US junction box using the provided screws.
3. **Connect Wiring:** Connect the fixture's wires to your household electrical circuit. This is a standard 3-wire connection (live, neutral, ground). Ensure connections are secure with wire nuts.
4. **Insert G9 LED Bulb:** Carefully insert the G9 LED bulb into the lamp base.
5. **Secure the Fixture:** Fix the wall sconce fixture onto the mounting bracket using the provided screws. Ensure it is flush and securely attached to the wall.
6. **Restore Power:** Once the fixture is securely installed, restore power at the circuit breaker and test the light.

Image: Step 1 - Always cut off power and wear protective gloves before starting electrical work.

Image: Step 2 - Secure the circular mounting bracket to the junction box.

Image: Step 4 - Insert the G9 LED bulb into the lamp base.

Image: Step 5 - Secure the lamp fixture to the mounting bracket.

## 6. OPERATING INSTRUCTIONS

---

Once properly installed and power is restored, the Aipsun wall sconce operates via your standard wall switch. There is no integrated switch on the fixture itself.

- **Turning On/Off:** Use the wall switch connected to the fixture to turn the light on or off.
- **Bulb Replacement:** The G9 LED bulbs are replaceable. To replace a bulb, ensure power is off at the circuit breaker, then carefully pull out the old G9 bulb and insert a new one.

## 7. MAINTENANCE

---

- **Cleaning:** To clean the fixture, ensure power is off. Use a soft, dry cloth to wipe down the aluminum surface. Avoid abrasive cleaners or solvents that may damage the finish.
- **Bulb Longevity:** The included LED G9 bulbs have a long lifespan. If a bulb needs replacement, follow the operating instructions and use a compatible G9 LED bulb (max 40W).

## 8. TROUBLESHOOTING

---

- **Light does not turn on:**
  - Check if the power is on at the circuit breaker.
  - Ensure all wiring connections are secure.
  - Verify that the G9 bulb is correctly inserted and not faulty.
- **Light flickers:**
  - Ensure the G9 bulb is fully seated in the socket.
  - Check for loose wiring connections.
  - Replace the G9 bulb to rule out a faulty bulb.

- **No switch on the lamp fixture:**

- This fixture is hardwired and does not include an integrated switch or plug. It is designed to be controlled by your existing wall switch.

- **LED G9 bulb can be replaced:**

- Yes, the G9 LED bulb can be replaced. Follow the bulb replacement steps in the Operating Instructions.

## 9. WARRANTY AND SUPPORT

---
