## Bergner Albarino 4 Pcs Cookware Set

# Bergner Albarino Non-Stick 4-Piece Cookware Set Instruction Manual

Model: Albarino 4 Pcs Cookware Set

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Bergner Albarino Non-Stick 4-Piece Cookware Set. This set includes a 24cm Kadai with Glass Lid, a 24cm Frypan, and a 28cm Tawa. Designed for healthy cooking with minimal oil, this cookware features a 3-layer Greblon C2 Marble coating and is PFOA-free. The heavy-gauge construction ensures even heat distribution, preserving food nutrients.

### SETUP AND FIRST USE

1. **Unpacking:** Carefully remove all cookware pieces and packaging materials from the box. Inspect each item for any damage.
2. **Handle Assembly:** Some handles may require assembly. Use a screwdriver to securely attach any loose handles to the cookware body. Ensure all screws are tightened to prevent wobbling during use.
3. **Initial Cleaning:** Before first use, wash all cookware pieces (Kadai, Frypan, Tawa, and Glass Lid) with warm soapy water and a soft sponge. Rinse thoroughly and dry completely.
4. **Seasoning (Optional but Recommended):** For enhanced non-stick performance and longevity, lightly coat the interior non-stick surface with a small amount of cooking oil. Heat the pan over low heat for 1-2 minutes, then let it cool and wipe off any excess oil with a paper towel.

### OPERATING INSTRUCTIONS

---

## Heat Management

- **Low to Medium Heat:** The non-stick coating performs best and lasts longest when used with low to medium heat settings. High heat is generally not required due to the efficient heat distribution of the heavy-gauge aluminum.
- **Preheating:** Preheat the cookware for a short period (1-2 minutes) before adding food. Do not preheat empty cookware on high heat for extended periods.
- **Oil Usage:** While designed for minimal oil cooking, a small amount of oil or butter can be used to enhance flavor and prevent sticking, especially for certain foods.

## Cooktop Compatibility

This cookware set features an induction bottom, making it compatible with all cooktops, including:

- Gas Stoves
- Induction Cooktops
- Vitroceramic Cooktops
- Electric Cooktops
- Halogen Cooktops

## COMPATIBLE WITH ALL COOKTOPS

GAS

INDUCTION

VITROCERAMIC

ELECTRIC

HALOGEN

### Using the Glass Lid

The tempered glass lid for the Kadai allows for easy monitoring of food during cooking. The integrated steam vent helps release excess steam, preventing boil-overs and maintaining optimal cooking conditions.

## TEMPERED GLASS LID

### For Slow and Tender Cooked Meals

#### Utensil Use

To protect the non-stick coating, always use wooden, silicone, or plastic utensils. Avoid metal utensils, as they can scratch and damage the non-stick surface.

#### CARE AND MAINTENANCE

##### Cleaning

- **Cool Down First:** Always allow cookware to cool completely before washing. Submerging hot cookware in cold water can cause warping.
- **Hand Washing:** Hand washing with warm soapy water and a soft sponge or cloth is recommended to prolong the life of the non-stick coating.
- **Avoid Abrasives:** Do not use abrasive cleaners, steel wool, or harsh scouring pads, as these can damage the non-stick surface.

- **Dishwasher Safety:** The manufacturer states that the item is **NOT dishwasher safe**. Hand wash only.
- **Stubborn Food Residue:** For stubborn food residue, fill the pan with warm water and a small amount of dish soap, let it soak for 15-20 minutes, then clean with a soft sponge.

### Storage

When storing, place a soft cloth or paper towel between stacked cookware pieces to protect the non-stick surface from scratches.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Food sticks to the pan.	<ul style="list-style-type: none"> <li>• Insufficient oil or fat.</li> <li>• Too high heat.</li> <li>• Damaged non-stick coating.</li> </ul>	<ul style="list-style-type: none"> <li>• Use a small amount of cooking oil or butter.</li> <li>• Cook on low to medium heat.</li> <li>• Avoid metal utensils. If coating is severely damaged, replacement may be necessary.</li> </ul>
Handles become loose.	Screws securing the handles have loosened over time.	Periodically check and tighten the screws on the Bakelite handles with a screwdriver. Do not overtighten.

Problem	Possible Cause	Solution
Exterior color fading.	Exposure to high heat or abrasive cleaning on the exterior.	Ensure cookware is used on appropriate burner sizes. Clean exterior with a soft cloth and mild detergent. Color fading on the exterior does not affect cooking performance.
Cookware warps or deforms.	Sudden temperature changes (thermal shock).	Always allow cookware to cool down naturally before washing or exposing to cold water.
