1. INTRODUCTION

This manual provides instructions for the FRIZZLIFE FPT01 Replacement Water Filter Cartridge Set. This filter set is designed to enhance water quality by reducing various impurities while retaining beneficial minerals. Proper installation and maintenance are essential for optimal performance and filter lifespan.

2. PRODUCT FEATURES

- **Advanced Filtration:** Utilizes a 3-in-1 design with PP layer, high-standard Activated Carbon, and special Resin to reduce Chlorine, Fluoride, heavy metals (Lead, Cadmium, Mercury, Copper, Aluminum), bad taste, odor, and sediment.
- **Mineral Retention:** Designed to retain beneficial minerals such as Calcium and Magnesium.
- **Extended Filter Life:** Each cartridge provides approximately 50 gallons of filtered water or up to 2 months of daily use, depending on water quality and usage.
- **Adjustable Flow Rate:** Features a regulator at the bottom of each cartridge to adjust filtration speed for thorough or faster filtration.
- **Easy Replacement:** Designed for straightforward cartridge removal and insertion.

Image: Exploded view of the FPT01 filter cartridge, illustrating its multi-stage filtration process and the types of substances it reduces, including chlorine, fluoride, lead, and other heavy metals. The image also shows the adjustable filtration speed mechanism.

3. COMPATIBILITY

The FRIZZLIFE FPT01 Replacement Water Filter Cartridge Set is compatible with the following FRIZZLIFE systems:

- FRIZZLIFE FP40 Water Filter Pitcher
- FRIZZLIFE T900 Instant Hot Water Dispenser Filter System
- FRIZZLIFE TF900 Instant Hot Water Dispenser Filter System

4. SETUP AND INSTALLATION

Follow these steps to install or replace your FPT01 filter cartridge:

1. **Unpack:** Remove the new filter cartridge from its packaging.
2. **Prepare:** If replacing an old filter, remove it from the reservoir of your compatible FRIZZLIFE system.
3. **Insert:** Carefully insert the new filter cartridge into the designated slot in the water reservoir. Ensure it is seated firmly to prevent leaks.
4. **Flush:** Before first use, fill the reservoir with water and allow it to filter through completely. Discard the first two full pitchers/reservoirs of filtered water to flush out any carbon fines.
5. **Adjust Flow Rate (Optional):** Refer to the "Operating Instructions" section for details on adjusting the filtration speed.

Image: The FRIZZLIFE FPT01 Replacement Water Filter Cartridge Set, showing two individual filter cartridges.

5. OPERATING INSTRUCTIONS

The FPT01 filter cartridge features an adjustable flow rate mechanism to suit your preferences:

- **Adjusting Filtration Speed:** Each filter cartridge has a regulator dial at the bottom.
 - Turn the dial towards the "+" symbol for faster filtration. This setting is suitable when you need filtered water quickly.
 - Turn the dial towards the "-" symbol to slow down the filtration rate. A slower rate allows for more thorough filtration, which may be preferred for certain water conditions.
- **Fastest Filtration:** For the quickest possible filtration, completely remove the caps from the restrictor at the bottom of the filter.

Image: Detailed view of the adjustable filtration mechanism on the FPT01 filter. It illustrates how turning the dial can increase or decrease the water flow rate, allowing users to choose between faster or more thorough filtration.

6. MAINTENANCE

Regular maintenance ensures optimal performance and water quality.

Filter Replacement

- **Replacement Schedule:** It is recommended to replace the filter cartridge every 2 months or after filtering approximately 50 gallons of water.
- **Factors Affecting Life:** The actual service life of the filter depends on the quality of your tap water and your personal water usage frequency. In areas with harder water or higher sediment, filters may require more frequent replacement.
- **Environmental Benefit:** Each filter cartridge can replace the equivalent of approximately 380 standard 16.9 fl oz plastic water bottles, contributing to reduced plastic waste.

Image: Visual representation highlighting the environmental benefit of using the FPT01 filter, indicating that one filter cartridge can replace 380 single-use plastic water bottles.

7. TROUBLESHOOTING

If you encounter issues with your FPT01 filter, consider the following:

Problem	Possible Cause	Solution
Slow Filtration Rate	<ul style="list-style-type: none"> Filter regulator set to "thorough" (slow) filtration. Filter is nearing end of life or is clogged with sediment. High sediment content in tap water. 	<ul style="list-style-type: none"> Adjust the regulator dial towards the "+" symbol or remove caps for fastest flow. Replace the filter cartridge. Consider pre-filtering water if sediment is a persistent issue.
Unpleasant Taste/Odor After Initial Use	<ul style="list-style-type: none"> Filter not adequately flushed. Filter is expired or damaged. 	<ul style="list-style-type: none"> Flush the filter again by discarding 1-2 full reservoirs of water. Ensure the filter is within its recommended lifespan. Replace if necessary.
Water Leaks Around Filter	<ul style="list-style-type: none"> Filter not seated correctly. Damaged filter or reservoir seal. 	<ul style="list-style-type: none"> Remove and re-insert the filter, ensuring it is firmly in place. Inspect the filter and reservoir for any visible damage. Contact support if damage is found.

8. SPECIFICATIONS

Attribute	Detail
Model Number	FPT01
Brand	FRIZZLIFE
Material	Activated Carbon, Resin, PP Layer
Item Weight	50 Grams (per cartridge)
Filter Life	Up to 50 Gallons or 2 Months (varies by water quality/usage)
External Testing Certification	NSF (for certain aspects of filtration performance)
Compatible Systems	FRIZZLIFE FP40, FRIZZLIFE T900, FRIZZLIFE TF900
UPC	850026491685

9. WARRANTY & SUPPORT

For specific warranty information regarding your FRIZZLIFE FPT01 Replacement Water Filter Cartridge Set, please refer to the documentation included with your original FRIZZLIFE water filtration system (FP40, T900, or TF900) or visit the official FRIZZLIFE website.

If you require technical assistance, have questions about installation, or need to report a product issue, please contact FRIZZLIFE customer support directly. Contact information can typically be found on the product packaging or the official FRIZZLIFE website.
