Electrolux PAPPCA50

Electrolux Acqua Pure Water Filter/Refill Instruction Manual

Model: PAPPCA50

1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Electrolux Acqua Pure Water Filter/Refill (Model PAPPCA50). Designed to ensure pure and healthy drinking water, this original Electrolux refill utilizes advanced filtration technology. Please read these instructions carefully before installation and use.

2. PRODUCT FEATURES

The Electrolux Acqua Pure filter is engineered for superior water purification, offering the following key features:

- **Advanced Filtration Technology:** Approved by Inmetro and ABNT, ensuring proven efficiency in particle retention, microbiological control, and reduction of free chlorine.
- **Activated Carbon with Silver Ions:** This composite material effectively reduces solid particles and sediments such as metals, clay, sand, rust, algae, and fungi. It also inhibits the development of bacteria and other microorganisms, while reducing unpleasant odors and tastes in the water.
- **Meltblown Polypropylene Barrier:** Provides high flow rates and enhanced capacity for retaining contaminants, further purifying the water.

4. INSTALLATION AND REPLACEMENT

Follow these general steps to replace your Electrolux Acqua Pure filter. Refer to your specific purifier's manual for detailed instructions.

1. Turn off the water supply to the purifier.
2. Locate the filter compartment, usually at the top or side of the purifier.
3. Twist the old filter counter-clockwise to unlock and remove it.

4. Insert the new Electrolux Acqua Pure filter into the compartment.
5. Twist the new filter clockwise until it locks securely into place.
6. Turn the water supply back on.
7. Flush the new filter by dispensing water for a few minutes (refer to your purifier's manual for exact flushing time) to remove any air and carbon fines.
8. Reset the filter indicator on your purifier, if applicable.

5. MAINTENANCE

To ensure continuous access to pure and safe drinking water, it is crucial to replace the Electrolux Acqua Pure filter regularly. The recommended replacement schedule is:

- Every **3,000 liters** of filtered water, or
- Every **6 months**, whichever comes first.

Adhering to this schedule helps maintain the filter's effectiveness in removing contaminants and ensures the longevity of your water purifier.

6. IMPORTANT INFORMATION

Warning: The use of non-original or 'compatible' refills is not tested or approved by Electrolux. Such products may compromise the quality of your drinking water, reduce the lifespan, and negatively affect the performance of your Electrolux water purifier. Always use original Electrolux Acqua Pure refills to ensure safety and optimal functionality.

7. SPECIFICATIONS

Specification	Detail
---------------	--------

Brand	Electrolux
Model Number	PAPPCA50
Product Dimensions	7.4 x 7.4 x 29.5 cm
Weight	410 g
Capacity	3000 Liters
Material	Plastic
Components Included	1 Filter/Refill
Particle Retention	Class C
Certification	Inmetro, ABNT
