SETUP

Follow these steps to set up your Roku Streaming Stick 4K:

1. **Step 1: Plug it in.** Connect the Roku Streaming Stick 4K directly into an available HDMI port on your TV. For power, connect the USB power cable to the stick and then to either a USB port on your TV or the included power adaptor plugged into a wall outlet. The long-range Wi-Fi receiver is integrated into the USB power cable for enhanced connectivity.

Simple setup

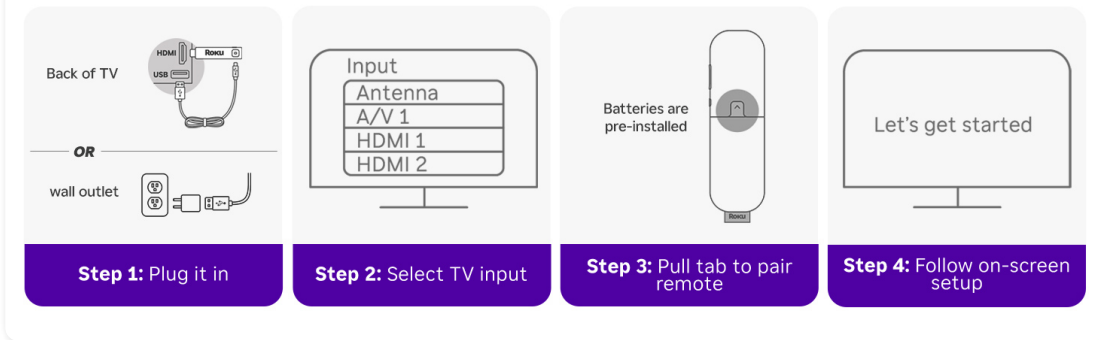

Image: Illustration of connecting the Roku Streaming Stick 4K to a TV's HDMI port and power via USB or wall outlet.

- Step 2: Select TV input.** Turn on your TV and use your TV remote to select the HDMI input where your Roku Streaming Stick 4K is connected.

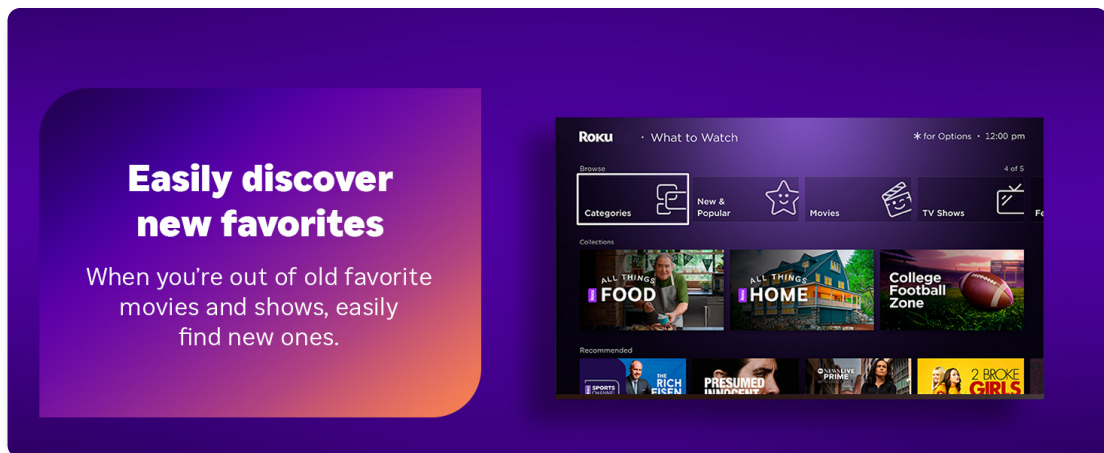

Image: A TV screen displaying various input options, guiding the user to select the correct HDMI port.

- Step 3: Pull tab to pair remote.** Remove the battery tab from the back of your Roku voice remote to activate the pre-installed AAA batteries. The remote should automatically pair with your Roku device.

OPERATING YOUR ROKU STREAMING STICK 4K

Navigating the Home Screen

The Roku home screen provides quick access to your installed streaming channels, featured content, live TV options, search, and settings. You can customize the order of your channels for easy access to your favorites.

Seamless streaming anywhere

Watch your favorite entertainment on any TV in the house, anywhere in your house—even your backyard—thanks to the long-range Wi-Fi® receiver.

Using the Voice Remote

Your Roku voice remote simplifies control of your streaming experience. It includes dedicated buttons for TV power, volume, and mute, allowing you to control your TV and Roku device with a single remote. Press and hold the voice button to use voice commands for searching content, launching apps, and more.

Home sweet home screen

Jump right in with a home screen that easily gets you to what you want to watch fast.

MAINTENANCE

Your Roku Streaming Stick 4K is designed for minimal maintenance. Ensure the device is kept in a well-ventilated area to prevent overheating. Roku devices receive automatic software updates, ensuring you always have the latest features and security enhancements. No manual updates are typically required.

TROUBLESHOOTING

If you encounter issues with your Roku Streaming Stick 4K, consider the following common solutions:

- **No Power/No Picture:** Ensure the USB power cable is securely connected to both the Roku device and a power source (TV USB port or wall adapter). Verify your TV is set to the correct HDMI input.
- **Remote Not Responding:** Check if the batteries in the remote are correctly inserted and have sufficient charge. If the remote is not paired, press and hold the pairing button inside the battery compartment until the indicator light flashes.
- **Wi-Fi Connectivity Issues:** Restart your Roku device by unplugging it from power for a few seconds.

and plugging it back in. Restart your Wi-Fi router. Ensure the Roku device is within range of your Wi-Fi network.

- **Poor Picture Quality:** Ensure your TV supports 4K and HDR/Dolby Vision if you expect these resolutions. Check your internet connection speed, as higher resolutions require more bandwidth.
- **Audio Problems:** Verify your TV's volume is up and not muted. Check audio settings on your TV and Roku device.

For more detailed troubleshooting or specific issues, refer to the official Roku support website or the user guide PDF available online.
