

AULA F2028 / K/M

Aula F2028 Mechanical Wired Gaming Keyboard User Manual

Model: F2028 / K/M

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your AULA F2028 Wired Gaming Keyboard. Designed for PC and laptop compatibility, this keyboard features a multicolor RGB backlight, a durable honeycomb hollow design, and a matte surface for enhanced grip and aesthetics. Please read this manual thoroughly to ensure optimal performance and longevity of your device.

SETUP

- Unpacking:** Carefully remove the keyboard from its packaging. Ensure all components are present.
- Connection:** The AULA F2028 keyboard connects via a wired USB interface. Locate an available USB port on your PC or laptop.
- Plug and Play:** Insert the USB connector into the USB port. The keyboard is designed for plug-and-play functionality and should be automatically recognized by your operating system.
- Driver Installation (Optional):** For advanced customization, such as custom key programming and detailed RGB

lighting effects, it is recommended to download and install the official AULA software from the manufacturer's website. Refer to the "Custom Programmable via Software" section in the specifications image for more details.

OPERATING INSTRUCTIONS

Basic Keyboard Functions

The AULA F2028 is a full-sized 104-key keyboard. Standard key functions operate as expected. The keyboard features 26-key anti-ghosting for reliable input during intense gaming sessions.

RGB Backlighting

The keyboard features vibrant RGB backlighting. Specific lighting modes and brightness levels can be adjusted. Refer to the manufacturer's software for advanced customization of lighting effects.

Multifunction Knob

The AULA F2028 includes a multifunction knob, typically located on the upper right side of the keyboard. This knob provides quick access to various controls, often related to media playback and volume. The specific functions are:

- **Short Press:** Toggle between different modes (e.g., media mode, lighting mode).
- **Long Press:** Switch between volume control and lighting brightness adjustment.
- **Rotate:** Adjust volume (in volume mode) or lighting brightness (in lighting mode).
- **Button below knob:** Typically used for play/pause or next/previous track control.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the keyboard surface. For dust and debris between keys, use compressed air. Avoid using liquid cleaners directly on the keyboard.
- **Keycap Removal (if applicable):** If keycaps need to be removed for deeper cleaning, use a keycap puller to avoid damage. Reinstall them carefully, ensuring they are properly aligned.
- **Storage:** When not in use for extended periods, store the keyboard in a clean, dry environment away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or kinks in the USB cable to prevent internal wire damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard not responding	Loose USB connection, faulty USB port, driver issue.	• Ensure USB cable is securely plugged in. • Try a different USB port on your computer. • Restart your computer. • Check Device Manager for driver issues and update if necessary.
Keys not registering or ghosting	Debris under keycaps, software conflict, hardware defect.	• Clean under the affected keycaps using compressed air. • Ensure no other keyboard software is conflicting. • Test on another computer to rule out system issues.
RGB lighting not working	Lighting mode off, software issue, power issue.	• Check keyboard shortcuts for lighting control (refer to manufacturer's guide or software). • Ensure the keyboard is receiving sufficient power from the USB port. • Reinstall or update the AULA keyboard software.

SPECIFICATIONS
