5. OPERATION

Once installed, the eufy Backup Battery operates automatically. It charges when the HomeBase 2 is connected to mains power and seamlessly switches to battery power during an outage.

- **Automatic Power Switching:** The battery automatically detects a power outage and provides power to the HomeBase 2 without interruption.

- **Battery Life:** The backup battery provides up to 8 hours of power to your HomeBase 2, depending on usage and connected devices.
- **Charging:** The battery recharges automatically when mains power is restored.

6. MAINTENANCE

To ensure optimal performance and longevity of your eufy Backup Battery, follow these maintenance guidelines:

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use liquid cleaners or aerosols.
- **Storage:** Store the battery in a cool, dry place away from direct sunlight and extreme temperatures.
- **Regular Use:** For best battery health, avoid prolonged periods of complete discharge or full charge without use.

7. TROUBLESHOOTING

If you encounter issues with your eufy Backup Battery, refer to the following common solutions:

- **Battery not providing power:** Ensure the battery is correctly connected between the HomeBase 2 and its power adapter. Check if the HomeBase 2's power adapter is functioning.
- **Battery not charging:** Verify that the HomeBase 2's power adapter is securely plugged into a working outlet and connected to the backup battery.
- **Short battery life:** Ensure the battery has been fully charged. Environmental factors and the number of connected devices to the HomeBase 2 can affect battery duration.
