HOMCOM CA836-0480231

HOMCOM Mobile 3-Drawer File Cabinet

MODEL: CA836-0480231

User Manual

Introduction

This manual provides essential information for the safe assembly, operation, and maintenance of your HOMCOM Mobile 3-Drawer File Cabinet. Please read these instructions thoroughly before use and retain them for future reference. This mobile cabinet is designed to offer convenient storage and can also function as a printer stand in home or office environments.

Safety Information

- Always follow assembly instructions carefully.
- Use safety gear when handling sharp edges or pinch points during assembly.
- Lock wheels securely when not in use to prevent accidental movement.
- Do not overload drawers. The maximum weight capacity for the entire unit is 10 kg (22 lbs).
- Keep small parts away from children during assembly to prevent choking hazards.

Package Contents

The package typically includes all necessary panels, hardware (screws, dowels, drawer slides), and four casters. Please verify all components are present and undamaged before beginning assembly. Refer to the included assembly guide for a detailed list of parts.

Assembly Instructions

Your file cabinet comes with clear, step-by-step instructions and labeled parts to facilitate assembly. For best

results, consider the following tips:

- **Tools:** While a basic screwdriver may be included, using a good quality screwdriver with a comfortable grip will make the process easier and reduce the risk of stripping screw heads.
- **Order of Assembly:** It is often recommended to assemble the drawers first, then the main cabinet frame. This can help manage parts and provide a more stable base for the final steps.
- **Casters:** Install the four 360° swivel wheels (casters) after the main cabinet body is fully assembled and stable. Two of the casters include brakes for securing the unit.
- **Drawer Sliders:** Pay close attention to the alignment of drawer sliders. If pre-drilled holes are not present for certain slider components, carefully mark and drill pilot holes to ensure proper fit and smooth operation. Test the drawer fit with one screw before fully securing.
- **Stability:** For enhanced stability, wood glue can be applied to dowels during assembly.
- **Drawer Fronts:** Ensure drawer fronts are uniformly spaced and aligned. Adjustments can often be made by slightly loosening and re-tightening the screws that attach the front panel to the drawer box.

Operating Instructions

Using the Drawers

The three drawers are equipped with smooth-glide rails for easy opening and closing. To access contents, gently pull the integrated groove-style handle. To close, push the drawer firmly until it is fully seated.

- **Storage Capacity:** Each drawer provides ample space for stationery, documents, and other office supplies.
- **File Storage:** This cabinet is designed for files to be laid flat within the drawers, not for hanging files.

Image: An illustration showing documents being placed flat inside one of the cabinet's drawers, indicating the intended method of file storage.

Mobility and Stability

The cabinet is equipped with four 360° swivel wheels for easy movement. Two of these wheels feature brakes to secure the cabinet in a stationary position.

- **Moving the Cabinet:** To move the cabinet, ensure both braked wheels are unlocked. Gently push or pull the cabinet to its desired location.
- **Securing the Cabinet:** Once the cabinet is in place, press down on the levers of the two braked wheels to lock them. This will prevent unintended movement.

Image: A detailed view of the cabinet's smooth-rolling casters, highlighting the two wheels equipped with locking brakes for stability.

Maintenance

- **Cleaning:** The melamine surface is wipe-clean. Use a soft, damp cloth and mild detergent if necessary. Avoid abrasive cleaners or harsh chemicals.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten as needed to maintain structural integrity.
- **Wheel Functionality:** Ensure the wheels roll smoothly and the brakes engage effectively. Clean any debris from the casters if movement becomes restricted.

Troubleshooting

- **Drawers not sliding smoothly:** Check that the drawer slides are correctly installed and aligned on both the drawer and the cabinet frame. Ensure no debris is obstructing the tracks.
- **Cabinet feels wobbly or unstable:** Verify that all screws and fasteners are fully tightened. Ensure the cabinet is on a flat, level surface. If on wheels, ensure the brakes are engaged when stationary.
- **Missing parts or damaged components:** If you discover any missing or damaged parts upon unboxing, please contact customer support immediately for assistance.

Specifications

Feature	Detail
Brand	HOMCOM
Model Number	CA836-0480231
Colour	Oak
Product Dimensions	50D x 40W x 57.5H Centimetres (19.7" D x 15.7" W x 22.6" H)
Maximum Weight Capacity	10 kg (22 lbs)
Material	Engineered Wood
Special Features	Portable, Scratch Resistant, Wheeled
Item Weight	17.7 kg
Mounting Type	Floor Mount
Room Type	Home Office, Study
