## Topeakmart TP-00107513

# Topeakmart 63-inch Cat Tree Assembly and User Manual

Model: TP-00107513

## INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your Topeakmart 63-inch Cat Tree. This multi-level cat tower is designed to provide a stimulating and comfortable environment for your feline companions, featuring various platforms, a cat condo, padded perches, and sisal-covered scratching posts.

## SAFETY INFORMATION

---

- Ensure all components are securely fastened during assembly to prevent instability.
- Place the cat tree on a flat, stable surface.
- Utilize the included anti-toppling strap to secure the cat tree to a wall, especially if you have active or multiple cats, to enhance stability and prevent accidental tipping.
- Regularly inspect the cat tree for any loose parts, wear, or damage. Tighten screws and replace worn components as necessary.
- Keep children away from the cat tree during assembly.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all the following components are present in your package:

- 1 x Cat Tree (disassembled components)
- 1 x Accessories Kit (includes screws, connectors, and anti-toppling strap)
- 1 x Instructions Manual

- Necessary Tools (e.g., Allen wrench)

## SETUP AND ASSEMBLY INSTRUCTIONS

---

Follow the step-by-step instructions provided in the included assembly guide. All matching accessories and tools are provided to facilitate the process.

1. Unpack all components and lay them out on a clean, flat surface. Identify each part using the assembly diagram.
2. Begin by assembling the base platforms, ensuring all posts are securely attached.
3. Proceed to build upwards, attaching the various levels, the cat condo, and the padded platforms as indicated in the instructions.
4. Attach the sisal-covered scratching posts to their designated locations.
5. Install the hammock by attaching its four strings to the hooks in the corners of the designated platform.
6. Secure the dangling ball toy to its attachment point.
7. Once fully assembled, use the anti-toppling strip to secure the cat tree to a nearby wall. This involves attaching one end of the strap to the middle board of the cat tree and the other end to a wall stud or using a wall anchor.

🐾 The enlarged size makes the hammock wider, and the cat can come and go freely.

🐾 The plate-type ladder is convenient for kittens, and the whole front is for scratching.

## OPERATING AND USAGE

---

The Topeakmart 63-inch Cat Tree provides a comprehensive activity center for your cats, supporting their natural instincts for jumping, running, hiding, scratching, and lounging.

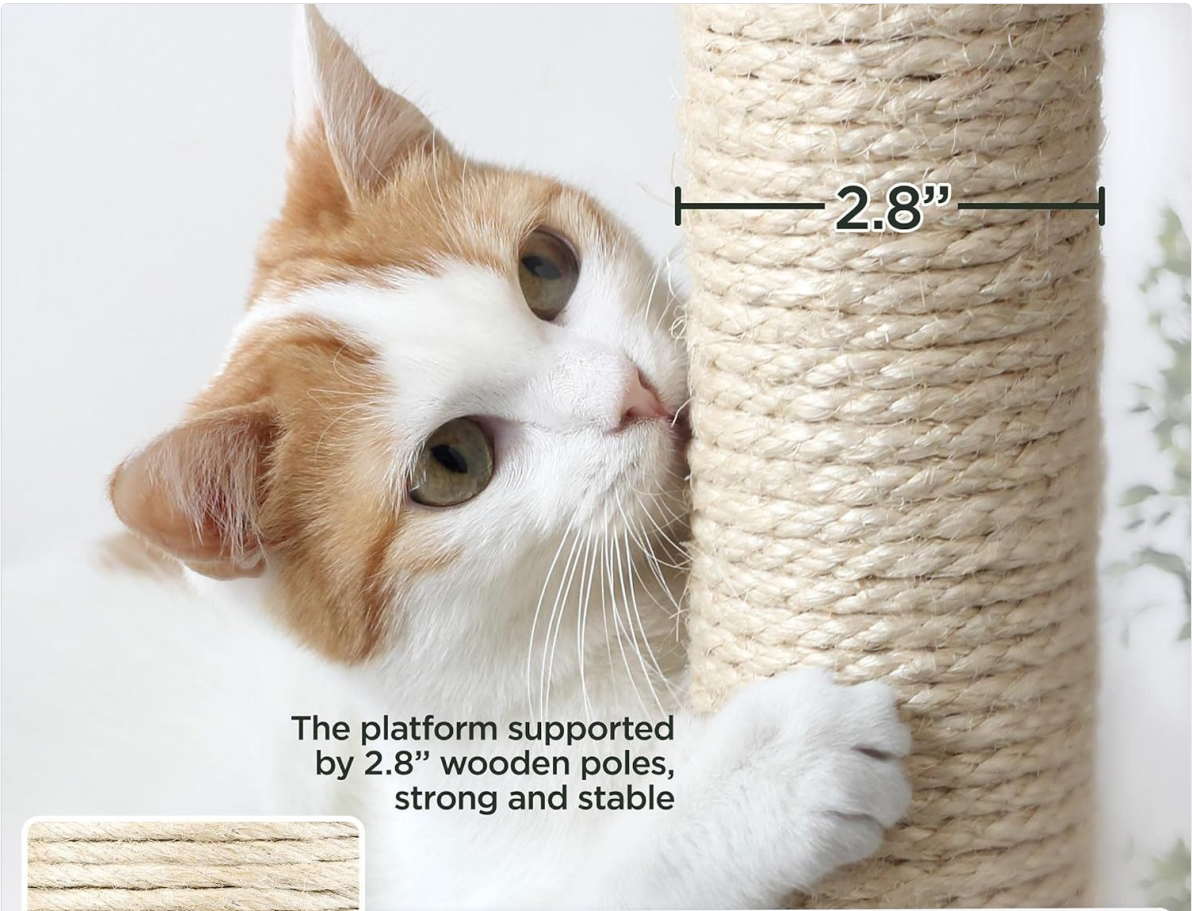

- **Scratching Posts:** The sisal-covered posts are designed to satisfy your cat's scratching instinct, helping to protect your furniture. The posts are 2.8 inches thick for enhanced durability.
- **Padded Platforms:** Multiple platforms and a top perch with raised edges offer comfortable spots for resting, observing surroundings, and napping. These surfaces are covered with premium plush fabric and feature polyester filling for ultimate comfort.
- **Cat Condo:** A spacious cat condo provides a private, enclosed space for your cat to hide, sleep, or feel secure.
- **Hammock:** An integrated hammock offers an additional cozy lounging spot. It is detachable for cleaning or repositioning.
- **Dangling Toy:** A dangling ball toy is included to encourage play and engagement. This toy is also detachable.

## MAINTENANCE

---

- **Cleaning:** The plush fabric surfaces can be spot cleaned with a damp cloth. For deeper cleaning, the care instructions specify "Hand Wash Only" for the fabric components. Ensure all parts are completely dry before reassembly or use.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Sisal Rope:** Over time, the sisal rope may fray from scratching. While durable, monitor its condition and consider replacing posts if they become excessively worn to maintain effectiveness and safety.

## TROUBLESHOOTING

---

- **Wobbling:** If the cat tree wobbles, ensure it is placed on a level surface. Check all connections and tighten any loose screws. Verify that the anti-toppling strap is correctly installed and secured to the wall.
- **Parts Missing/Damaged:** If you find any parts missing or damaged upon opening the package, please contact Topeakmart customer support for assistance.
- **Cats Not Using Tree:** Introduce your cat to the tree gradually. Use catnip or treats to encourage

exploration. Place familiar blankets or toys on the platforms.
