IMPORTANT SAFETY INFORMATION

Please read all instructions before using this appliance. Keep away from water. Do not use while bathing. Do not place or store appliance where it can fall or be pulled into a tub or sink. Do not place in or drop into water or other liquid. If appliance falls into water, unplug it immediately. Do not reach into the water. Always unplug this appliance immediately after using.

- Do not use near water.
- Always unplug after use.
- Keep out of reach of children.
- Do not wrap the cord around the appliance.
- Allow to cool completely before storing.

PRODUCT FEATURES

- **Digital T3 SinglePass Technology:** Ensures even, consistent heat for fast, one-pass styling and lasting results.
- **Custom Blend Ceramic Surface:** Provides a smooth glide and minimizes heat exposure for shiny, polished curls.
- **Adjustable Heat Settings:** Five precise heat settings (260°F - 410°F) to match various hair types and textures.
- **Long Barrel Design:** Ideal for all hair lengths, making it easier to style longer strands.
- **Lightweight and Ergonomic:** Designed for comfortable and effortless styling.

OPERATING INSTRUCTIONS

1. Power On and Heat Selection

1. Press and hold the power button until the lights illuminate.
2. Twist the dial at the base of the handle to select your desired heat setting. The lights will indicate the chosen level.
3. Allow the iron to heat up. The lights will stop blinking when the selected temperature is reached.

Ceramic Heater Technology

for minimized heat exposure, but perfect, lasting curls.

2. Curling Technique

1. Ensure hair is dry and detangled.
2. Take a 1-2 inch section of hair.
3. Secure the ends of the hair section underneath the clamp, halfway between the root and tip.
4. Slowly close and open the iron, twisting it back toward the scalp to feed hair into the iron until reaching the ends.
5. Hold for a few seconds, then release the clamp and gently slide the iron out.
6. Allow the curl to cool completely before touching or styling to set the shape.

Light & ergonomic
design for effortless, easy styling.

MAINTENANCE

- Ensure the appliance is unplugged and completely cool before cleaning.
- Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Do not immerse the appliance in water.
- Store in a dry place, away from moisture and direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not properly plugged in or power button not activated.	Ensure the appliance is securely plugged into a working outlet. Press and hold the power button until lights illuminate.
Hair is not curling effectively.	Incorrect heat setting for hair type, hair not fully dry, or insufficient hold time.	Adjust to a higher heat setting (if suitable for your hair type). Ensure hair is completely dry. Increase hold time slightly.
Hair snags or pulls.	Hair is tangled or not properly sectioned.	Ensure hair is thoroughly detangled before styling. Work with smaller, manageable sections.

SPECIFICATIONS
