## 4. MAINTENANCE

---

Proper care ensures the longevity of your LEGO set.

### 4.1. Cleaning

To clean your LEGO bricks, use a mild soap solution and lukewarm water (not exceeding 40°C / 104°F). Gently scrub with a soft brush or cloth. Rinse thoroughly with clear water and air dry at room temperature. Avoid using hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.

### 4.2. Storage

Store your LEGO set in a cool, dry place away from direct sunlight to prevent discoloration and warping. Keeping the set assembled or disassembled in sealed containers can help prevent dust accumulation and loss of small pieces.

## 5. TROUBLESHOOTING

---

If you encounter any issues during assembly or play, consider the following:

- **Missing Pieces:** If you find a piece missing from your new set, please visit the LEGO Customer Service website to request replacement parts.
- **Assembly Difficulties:** Double-check the instruction steps. Sometimes a small brick might be misplaced or oriented incorrectly. Refer to the digital instructions in the LEGO Building Instructions app for 3D views.

- **Loose Connections:** Ensure bricks are firmly pressed together. LEGO connections are designed to be secure.
