## MAINTENANCE

Proper care will ensure the longevity and appearance of your LEGO set.

### Cleaning Instructions:

- **Dust Removal:** Use a soft brush or a can of compressed air to gently remove dust from the bricks and minifigures.
- **Washing:** For deeper cleaning, LEGO bricks can be washed by hand using lukewarm water (not exceeding 40°C or 104°F) and a mild detergent. Rinse thoroughly with clear water.
- **Drying:** Air dry the bricks at room temperature. Avoid direct sunlight or high heat, as this can deform the plastic. Do not use a hairdryer or microwave.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or other harsh chemicals, as these can damage the plastic and printed elements.

### Storage:

Store your LEGO set in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration and material degradation. Keeping the set assembled or disassembled in a container will help
