Earldom ET-M22

Earldom ET-M22 Bluetooth Receiver User Manual

Model: ET-M22

Introduction Product Overview Setup Operation Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

Thank you for purchasing the Earldom ET-M22 Bluetooth Receiver. This device allows you to wirelessly stream audio from your Bluetooth-enabled smartphone, tablet, or computer to any audio system with a 3.5mm auxiliary input. Enjoy high-quality audio without the need for cables.

Figure 1: Earldom ET-M22 Bluetooth Receiver in its retail packaging, showing "V2.1 Wireless+EDR" and "Music Receiver".

2. Product Overview

The Earldom ET-M22 is a compact Bluetooth audio receiver designed for ease of use. It features a standard USB-A

connector for power and a 3.5mm audio output jack for connecting to your audio system.

2.1 Package Contents

- Earldom ET-M22 Bluetooth Receiver
- 3.5mm Audio Cable (if included, typically a short one)
- User Manual (this document)

2.2 Device Layout

Figure 2: The Earldom ET-M22 Bluetooth Receiver showing its USB power input and 3.5mm audio output, with illustrations of connections to a car stereo, TV, and laptop.

As shown in Figure 2, the receiver has a USB connector for power and a 3.5mm audio jack for output. There are no visible buttons, indicating a plug-and-play operation for power and automatic pairing mode activation.

3. Setup

Follow these steps to set up your Earldom ET-M22 Bluetooth Receiver:

1. **Power Connection:** Insert the USB-A connector of the ET-M22 into a powered USB port. This can be a USB port in your car, on a wall adapter (5V USB charger), a computer, or a speaker system. The device will power on automatically.
2. **Audio Connection:** Connect one end of the 3.5mm audio cable (often included) to the 3.5mm audio output jack on the ET-M22.
3. **Connect to Audio System:** Connect the other end of the 3.5mm audio cable to the auxiliary (AUX) input of your car stereo, home speaker system, headphones, or any other audio device you wish to make Bluetooth-enabled.
4. **Select AUX Input:** On your audio system, select the AUX input source.

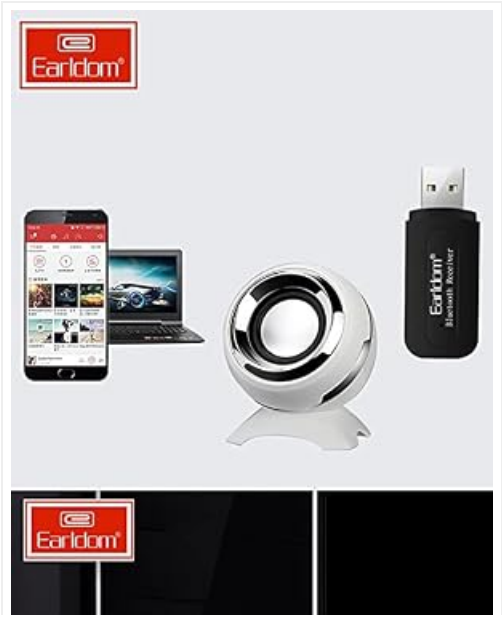

Figure 3: Examples of the Earldom ET-M22 connected to a desktop computer, a speaker system, and a car's USB port, demonstrating its versatility.

4. Operating Instructions

4.1 Pairing with a Bluetooth Device

Once the ET-M22 is powered on and connected to your audio system, it will automatically enter pairing mode. A small LED indicator (if present, typically blue or red) may flash to indicate pairing mode.

1. Ensure the ET-M22 is powered on and connected to your audio system's AUX input.
2. On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings menu.
3. Enable Bluetooth and scan for available devices.
4. Locate and select "ET-M22" (or a similar name like "Earldom Receiver") from the list of devices.
5. Once connected, the LED indicator on the ET-M22 may change to a solid light or flash slower, indicating a successful connection.

4.2 Playing Audio

After successful pairing, any audio played on your connected Bluetooth device will be streamed wirelessly to the Earldom ET-M22 and output through your connected audio system.

- Adjust the volume on your connected Bluetooth device and/or your audio system.
- Control playback (play, pause, skip tracks) directly from your Bluetooth device.

5. Maintenance

To ensure the longevity and optimal performance of your Earldom ET-M22 Bluetooth Receiver, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the device. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Moisture:** Keep the device away from water and high humidity.
- **Handle with Care:** Avoid dropping or subjecting the device to strong impacts.

6. Troubleshooting

If you encounter issues with your Earldom ET-M22, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power/Device not turning on	Not properly connected to a power source.	Ensure the USB connector is fully inserted into a working USB port. Try a different USB port or power adapter.
Cannot pair with Bluetooth device	Bluetooth on source device is off or already connected to another device. ET-M22 is not in pairing mode.	• Ensure Bluetooth is enabled on your source device. • Disconnect from other Bluetooth devices. • Restart the ET-M22 by unplugging and re-plugging it. • Move your source device closer to the ET-M22.

Problem	Possible Cause	Solution
No sound after pairing	Incorrect audio input selected on the audio system. Volume too low. Loose 3.5mm cable connection.	• Verify the audio system is set to the correct AUX input. • Increase the volume on both your Bluetooth device and the audio system. • Ensure the 3.5mm audio cable is securely connected to both the ET-M22 and the audio system. • Test with a different 3.5mm audio cable if available.
Intermittent audio or poor sound quality	Interference. Device too far from the receiver. Low battery on source device.	• Move the Bluetooth source device closer to the ET-M22. • Avoid placing the receiver near other wireless devices (Wi-Fi routers, microwaves). • Ensure your source device has sufficient battery.

7. Specifications
