SETUP

1. Charging the Headphones

Before first use, fully charge your headphones. A full charge takes approximately 1.5 hours.

- Connect the provided USB Type-C cable to the charging port on the headphone.
- Connect the other end of the cable to a USB power source (e.g., computer USB port, wall adapter).
- The indicator light will show charging status (refer to LED indicator section for details).

2. Bluetooth Pairing

To connect your headphones to a device via Bluetooth:

1. Ensure the headphones are powered off.
2. Press and hold the power button until the indicator light flashes rapidly (usually blue and red), indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "EDIFIER W820NB" from the list.
5. Once connected, the indicator light will flash slowly or remain solid blue.

The headphones support Bluetooth 5.2 for a stable connection up to 10 meters.

TROUBLESHOOTING

Problem	Solution
No sound/Low volume	Ensure headphones are powered on and charged. Check device volume and headphone volume. Ensure headphones are correctly paired to the device. Try re-pairing the headphones.
Cannot pair via Bluetooth	Ensure headphones are in pairing mode (rapid flashing indicator). Move headphones closer to the device. Clear Bluetooth history on your device and try again. Restart both headphones and the device.
Poor call quality	Ensure microphone is not obstructed. Check network signal strength on your phone. Move to a quieter environment.
ANC not effective	Ensure ANC is activated (Multi-function button). Adjust headphone fit to ensure a good seal around the ears. ANC is less effective against high-frequency or irregular sounds.
