Philips Hue 563296

Philips Hue Smart Light Starter Kit User Manual

Model: 563296

INTRODUCTION

This user manual provides comprehensive instructions for setting up, operating, and maintaining your Philips Hue Smart Light Starter Kit. The kit includes a Hue Bridge and four 75W A19 E26 LED Smart White and Color Ambiance Bulbs, designed to bring smart, energy-efficient lighting to your home. Control your lighting with ease using the Philips Hue app, voice commands via compatible smart assistants, or by setting up automated routines.

The Philips Hue Smart Light Starter Kit, including the Hue Bridge and four smart bulbs.

What's in the Box

Your Philips Hue Smart Light Starter Kit contains the following components:

- One (1) Philips Hue Bridge
- Four (4) Philips Hue White and Color Ambiance 75W A19 E26 LED Smart Light Bulbs
- Power adapter for the Hue Bridge
- Ethernet cable for the Hue Bridge

SETUP

Follow these steps to set up your Philips Hue Smart Light Starter Kit:

1. **Step 1: Install your lighting.** Screw the Philips Hue smart bulbs into your desired light fixtures. Ensure the fixtures are powered on.

Begin by installing your Philips Hue bulbs into compatible fixtures.

2. **Step 2: Connect the Philips Hue Bridge.** Plug the Hue Bridge into a power outlet and connect it to your Wi-Fi router using the provided Ethernet cable. Wait for all three indicator lights on the Bridge to illuminate steadily.

Connect the Hue Bridge to your router and power source for a stable connection.

3. **Step 3: Download the Philips Hue app.** Search for 'Philips Hue' in your smartphone's app store (App Store for iOS or Google Play Store for Android) and download the official application. Follow the in-app instructions to discover and pair your new lights with the Bridge.

Download the Philips Hue app to control your smart lighting system.

Overview of the three simple steps to begin using your Philips Hue system.

OPERATING YOUR PHILIPS HUE LIGHTS

The Philips Hue system offers various ways to control and personalize your lighting experience.

App Control

The Philips Hue app is your primary interface for managing your lights. You can:

- Turn lights on/off.
- Adjust brightness and color.
- Create and save custom scenes.
- Group lights into rooms or zones for simultaneous control.
- Set routines, timers, and automations for daily schedules or when you're away.

Easy smart lighting

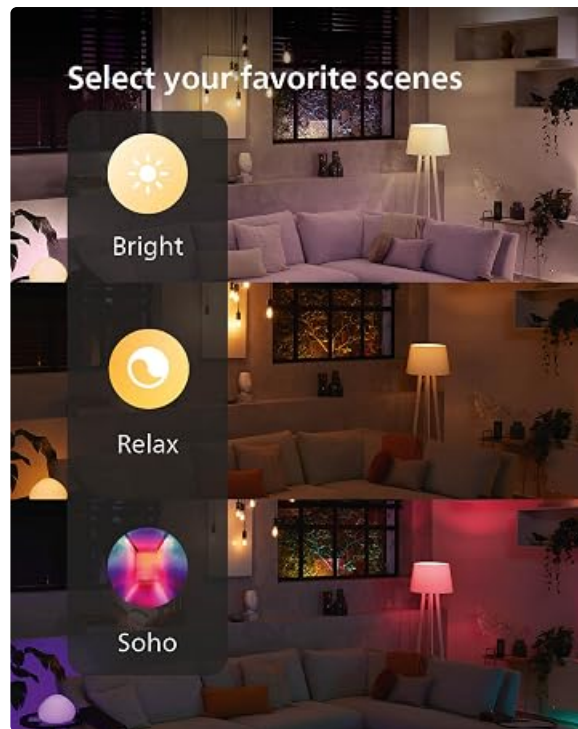

Create custom scenes to set the mood

Easily create custom scenes and control your lighting through the Philips Hue app.

Philips Hue lights can be adapted for every room, mood, and moment.

Select from a variety of preset scenes or create your own to match your activity or mood.

Voice Control

Integrate your Philips Hue lights with smart assistants like Amazon Alexa, Google Assistant, and Apple HomeKit for convenient voice control.

- Say commands like "Alexa, turn on the living room lights" or "Hey Google, set the bedroom lights to blue."
- Control individual lights, groups, or activate scenes using your voice.

Easy control with your voice

Works with Amazon Alexa and the Google Assistant

Simple to set up and use with Alexa

Control your Philips Hue lights effortlessly with voice commands through Amazon Alexa or Google Assistant.

Dynamic Lighting and Scenes

Explore the full spectrum of lighting possibilities with your White and Color Ambiance bulbs:

- **Soft White Light:** Provides a comfortable warm white light with instant wireless dimming.
- **Warm-to-Cool White Light:** Offers 50,000 shades of white light, from warm to cool, adjustable at the touch of a button.
- **White and Colored Light:** Access millions of colors to set the mood for any occasion, from vibrant parties to relaxing evenings.

Adjust the light from dimmable warm to cool white to suit any moment of the day.

Syncing Philips Hue smart lights to media creates immersive lighting experiences

Utilize well-being lighting features to support your daily routine.

Advanced Features with Hue Bridge

The included Hue Bridge unlocks the full potential of your smart lighting system:

- Control your lights securely from anywhere in the world.
- Schedule your lights to turn on/off or change scenes at specific times.
- Enjoy an instant response and ultra-stable connection that doesn't rely on your Wi-Fi bandwidth for light control.
- Seamlessly integrate with other smart home products and Matter-compatible devices.
- Add smart switches and motion sensors for expanded control options.
- Sync your lights with movies, games, and music for immersive experiences.

Away from home control

The Hue Bridge enables full home and outdoor control, extended range, and advanced features.

Upgrade with the Hue Bridge to unlock reliable, full home control and seamless integration.

Syncing Philips Hue smart lights to media creates immersive lighting experiences.

Control with voice, app or add accessories

Achieve optimal control for an effortless experience with various control methods.

Control your lights using voice, the app, or by adding accessories.

MAINTENANCE

Philips Hue bulbs are designed for long-lasting performance. To ensure optimal operation and longevity:

- Keep bulbs and the Bridge clean by wiping with a soft, dry cloth.
- Avoid using liquid or aerosol cleaners.
- Ensure proper ventilation around the Bridge to prevent overheating.
- Regularly check for firmware updates through the Philips Hue app to ensure your system has the latest features and security enhancements.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Smart Light Starter Kit, consider the following common solutions:

- **Lights Unresponsive:** Check if the bulbs are screwed in properly and the light fixture is powered on. Ensure the Hue Bridge is connected to power and your router, and all three indicator lights are solid.
- **App Cannot Find Bridge/Lights:** Ensure your smartphone is connected to the same Wi-Fi network as the

Hue Bridge. Try restarting the Hue app, or power cycling the Bridge (unplug and plug back in).

- **Poor Connection/Range:** The Hue Bridge uses Zigbee, which creates its own mesh network. Ensure the Bridge is centrally located and not obstructed by large metal objects. Adding more Hue lights can extend the Zigbee network's range.
- **Voice Control Issues:** Verify that your smart assistant (Alexa, Google Assistant) is properly linked to your Philips Hue account in their respective apps. Check your internet connection.
- **Bulb Not Responding:** Try power cycling the individual light fixture. If the issue persists, try resetting the bulb (refer to Philips Hue support for specific bulb reset procedures).

For more detailed troubleshooting or persistent issues, please refer to the official Philips Hue support website or contact customer service.

SPECIFICATIONS

Feature	Detail
Brand	Philips Hue
Model Name	Philips Hue
Item Model Number	563296
