SHOKZ S661

SHOKZ OpenMove Bone Conduction Headphones

MODEL: S661

Introduction

The SHOKZ OpenMove are open-ear Bluetooth sport headphones designed for comfort and situational awareness. Utilizing bone conduction technology, these wireless earphones provide audio without blocking your ear canals, making them ideal for activities like running and workouts. This manual provides essential information for setting up, operating, and maintaining your OpenMove headphones.

Product Overview

The SHOKZ OpenMove headphones feature a lightweight, open-ear design for comfortable all-day wear. They utilize patented 7th generation bone conduction technology to deliver sound through your cheekbones, keeping your ears open to ambient sounds for enhanced safety and awareness.

- **Open-Ear Design:** Ensures comfort and situational awareness.
- **Secure Fit:** Wraparound titanium frame keeps headphones in place during activities.
- **6 Hours Battery Life:** Enjoy music and calls on a single charge.
- **USB-C Charging:** Convenient and widely compatible charging.
- **IP55 Sweat Resistant:** Designed to withstand sweat, splashes, and light rain.
- **Dual Noise-Cancelling Microphones:** For clear calls.
- **Bluetooth 5.1:** Provides stable and quick connectivity.

Setup

Charging Your Headphones

Before first use, fully charge your SHOKZ OpenMove headphones. Connect the provided USB-C charging cable to the charging port on the headphones and to a compatible USB power source. A full charge takes approximately 2 hours.

Precise, Balanced Audio

Patented 7th generation bone conduction technology delivers superior dynamic stereo sound.

Pairing with a Device

To pair your OpenMove headphones with a Bluetooth-enabled device (e.g., smartphone, tablet, PC, watch), ensure the headphones are powered off. Press and hold the power button until the LED indicator flashes red and blue, indicating pairing mode. On your device, enable Bluetooth and select "OpenMove by SHOKZ" from the list of available devices. The headphones support Bluetooth 5.1 and have a range of up to 33 feet (10 meters).

Operating Instructions

The SHOKZ OpenMove headphones feature intuitive controls for managing your audio and calls.

Basic Controls

- **Power On/Off:** Press and hold the power button.
- **Volume Control:** Use the dedicated volume buttons (+/-) to adjust the audio level.
- **Play/Pause Music:** Press the multi-function button once.
- **Answer/End Call:** Press the multi-function button once during an incoming call or active call.
- **Next Track:** Double-press the multi-function button.
- **Previous Track:** Triple-press the multi-function button.

Maintenance

Proper care ensures the longevity and performance of your SHOKZ OpenMove headphones.

- **Cleaning:** Wipe the headphones with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- **Sweat Resistance:** The headphones are IP55 sweat resistant, making them suitable for workouts. After intense exercise, wipe them dry to prevent moisture buildup.
- **Storage:** When not in use, store your headphones in the provided protective case to prevent damage.

Troubleshooting

If you encounter issues with your SHOKZ OpenMove headphones, try the following steps:

- **No Power:** Ensure the headphones are fully charged.
- **Cannot Pair:** Make sure the headphones are in pairing mode (flashing red and blue LED) and within range of your device. Forget the device on your phone's Bluetooth settings and try pairing again.
- **No Sound:** Check the volume levels on both your headphones and your connected device. Ensure the headphones are properly connected.
- **Poor Sound Quality:** Ensure the headphones are positioned correctly on your cheekbones. Move closer to your connected device to improve Bluetooth signal.
