MEGA Pokémon Charmander Evolution Set (Model HFG06) Instruction Manual

Your guide to assembling and enjoying your Pokémon building figures.

1. INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your MEGA Pokémon Charmander Evolution Set. This set allows you to build three iconic Pokémon figures: Charmander, Charmeleon, and Charizard, along with a themed fire environment. Please read these instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

2. PACKAGE CONTENTS

Upon opening the box, verify that all components are present. The MEGA Pokémon Charmander Evolution Set includes:

- Approximately 300 building bricks and pieces.
- Instruction booklet for assembly of Charmander, Charmeleon, and Charizard.
- Components for a buildable fire environment.

If any pieces are missing or damaged, please refer to the "Warranty and Support" section for assistance.

3. SETUP AND ASSEMBLY

Assembly of the MEGA Pokémon Charmander Evolution Set requires careful attention to the provided instruction booklet. Follow these general guidelines:

1. **Unpack Components:** Carefully open the packaging and lay out all building bricks and pieces on a

clean, flat surface. It is recommended to sort pieces by color or type to facilitate assembly.

2. **Consult Instruction Booklet:** Refer to the included instruction booklet for step-by-step visual guides. Each step will illustrate which pieces are needed and how they connect.
3. **Assemble Figures:** Begin by assembling the Charmander figure, then proceed to Charmeleon, and finally Charizard. Pay close attention to the articulation points for poseable limbs.
4. **Build Environment:** Once the figures are complete, assemble the fire environment base as instructed. This base is designed to complement the figures and enhance display options.

4. OPERATING AND PLAY

The MEGA Pokémon figures are designed with articulated limbs, allowing for various poses and dynamic display options. Charizard also features posable wings for enhanced play and display.

- **Poseability:** Gently adjust the limbs and joints of Charmander, Charmeleon, and Charizard to create desired action poses.
- **Charizard's Wings:** The wings on Charizard can be moved to simulate flight or different attack stances.
- **Environment Interaction:** Position the figures within the fire environment to recreate battle scenes or display them dynamically.

5. MAINTENANCE

To ensure the longevity and appearance of your MEGA Pokémon figures, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For more stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the figures and their environment in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the figures with care, especially when adjusting articulated parts, to prevent accidental breakage.

6. TROUBLESHOOTING

If you encounter any issues during assembly or use, consider the following:

- **Missing Pieces:** Double-check all packaging materials. If a piece is genuinely missing, contact Mega

Brands customer support (see Section 8).

- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and aligned. Apply gentle, even pressure. Do not force pieces together, as this can cause damage.
- **Figures Not Holding Poses:** Verify that all joints are securely connected. Over time, joints may loosen; gentle re-assembly or adjustment can often resolve this.
