3. Operating Instructions

This art set offers a diverse range of mediums. Below are general guidelines for using each type of supply:

Using Paints (Acrylic, Watercolor, Oil):

- **Acrylic Paints:** These paints are water-soluble when wet but dry quickly to a permanent, water-resistant finish. Use brushes to apply directly to canvas or mix on the palette. Clean brushes with water immediately after use.
- **Watercolor Paints & Cakes:** Activate watercolor cakes with a wet brush. For tube watercolors, squeeze a small amount onto the palette and dilute with water. Apply in thin layers for transparent effects. Clean brushes with water.
- **Oil Paints:** Oil paints dry slowly, allowing for extended blending time. Use oil-specific brushes and mediums (not included) for best results. Clean brushes with appropriate solvents (not included).

Using Drawing Mediums (Oil Pastels, Colored Pencils, HB Pencils):

- **Oil Pastels:** Apply directly to paper or canvas. They offer vibrant colors and a creamy texture, suitable for blending and layering.
- **Colored Pencils:** Use for detailed work, shading, and adding texture. Layer colors to create new hues and depths.
- **HB Pencils:** Ideal for sketching outlines, preliminary drawings, and detailed line work.

4. Maintenance and Care

Proper maintenance ensures the longevity of your art supplies and the wooden case.

Cleaning and Storage:

- **Brushes:** After using water-based paints (acrylics, watercolors), clean brushes thoroughly with water and mild soap. Reshape bristles and allow to air dry. For oil paints, clean with appropriate brush cleaner or mineral spirits.
- **Paints:** Ensure caps are tightly secured on paint tubes to prevent drying. Store in a cool, dry place.
- **Pastels & Pencils:** Keep oil pastels and colored pencils organized in their designated trays to prevent breakage and smudging. Use the sharpener as needed for pencils.
- **Wooden Case:** Wipe the wooden case with a soft, dry cloth to remove dust or smudges. Avoid exposing it to excessive moisture or direct sunlight to preserve the wood finish.

5. Troubleshooting

Encountering issues with your art supplies can be frustrating. Here are some common problems and their solutions:

- **Dried Acrylic Paint:** If acrylic paint in tubes has slightly dried, try adding a few drops of water and mixing. For severely dried paint, it may need to be replaced. Always ensure caps are tightly sealed.
- **Hardened Brushes:** If brushes have hardened due to dried paint, soak them in warm water (for acrylics/watercolors) or appropriate solvent (for oils) for a few hours, then gently work out the paint.
- **Pencil Breakage:** Excessive pressure during sharpening or use can cause pencil leads to break. Use the included sharpener carefully and avoid dropping pencils.
- **Oil Pastel Crumbling:** If oil pastels crumble, they may be too cold. Warm them slightly in your hands before use.
