Cupohus AC6923

Cupohus Aurora Moon Star Projector Night Light User Manual

Model: AC6923

Brand: Cupohus

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Cupohus Aurora Moon Star Projector Night Light. Please read this manual thoroughly before operation and retain it for future reference.

SAFETY INFORMATION

- Do not look directly into the projector light source.
- Keep the device away from water and moisture.
- Do not attempt to disassemble or repair the device yourself. Contact customer support for assistance.
- Use only the provided USB-C cable for power.
- Ensure the device is placed on a stable, flat surface.
- Keep out of reach of small children to prevent accidental ingestion of small parts or direct eye exposure to the laser.

PACKAGE CONTENTS

Verify that all items are present in your package:

- 1 x Cupohus Aurora Moon Star Projector
- 1 x Remote Control
- 1 x Type-C USB Cable

- 1 x User Manual (this document)

Image: Contents of the product package, including the projector, remote, USB cable, and user guide.

PRODUCT OVERVIEW

The Cupohus Aurora Moon Star Projector combines multiple light effects to create a dynamic visual experience. It features a compact design and can be controlled via physical buttons or the included remote control.

Image: The Cupohus projector displaying aurora, moon, and stars on a ceiling, with the remote and a smartphone showing music playback.

Projector Components

- **Projection Lens:** Emits the star, moon, and aurora effects.
- **Power Port:** USB-C input for power supply.
- **Control Buttons:** Located on the device for basic functions.
- **Speaker:** For Bluetooth audio playback.

Bluetooth Music Speaker Light Projector

Projection 861ft²(80m²)

1. Bluetooth Control: connect to your smartphone / laptop / tablet to play music
2. Remote Control: distance with our projector should not be further than 9.8ft (3m)

Remote Control Functions

The remote control provides full access to all features of the projector.

Relaxing to music in the flowing Northern Lights

When you come home full of fatigue or when you are lonely as you need to stay at home, just turn on our galaxy aurora projector. Any beautiful scenery is a source of pleasure.

Image: The remote control with various buttons for power, Bluetooth, brightness, mode selection, color control (R, G, B, W), volume, track control, laser switch, Northern Lights effects, Moon effects, and timer settings (1H, 2H).

SETUP

1. **Power Connection:** Connect the provided USB-C cable to the projector's power port and plug the other end into a compatible USB power source (e.g., USB wall adapter, power bank, laptop). The device requires 120 Volts.
2. **Remote Control Batteries:** Open the battery compartment on the back of the remote control and insert 2 AAA batteries (not included), ensuring correct polarity.
3. **Placement:** Place the projector on a stable surface. It can be placed upright or tilted to adjust the projection position and range on the wall or ceiling.

OPERATING INSTRUCTIONS

Power On/Off

- Press the **Power button** on the projector or the remote control to turn the device on or off.

Projection Modes (3-in-1)

The projector offers three main projection elements: Stars, Moon, and Aurora. These can be displayed individually or in any combination.

- Use the dedicated **Star Switch**, **Moon Switch**, and **Northern Lights Switch** buttons on the projector or remote to activate/deactivate each element.
- The **Mode button** on the remote cycles through preset combinations and effects for the Northern Lights.

An Excellent Sleeping Aid for Your Children

—A night light for kids who are afraid of the dark

—Help calm mind and drift away to a deep sleep

Video: A short clip showcasing the Aurora Moon Star Projector Night Light's dynamic color changes and moon projection.

Color and Brightness Adjustment

- **Color Selection:** Use the **R** (Red), **G** (Green), **B** (Blue), and **W** (White) buttons on the remote to select individual colors or combine them.
- **Brightness:** Adjust the projection brightness using the **Brightness Up** and **Brightness Down** buttons on the remote.

Aurora Flow Speed Adjustment

- Control the speed of the Northern Lights (aurora) effect using the **S+** (Speed Up) and **S-** (Speed Down) buttons on the remote.

Bluetooth Music Speaker

The projector features a built-in Bluetooth speaker for playing music from your smartphone or other Bluetooth-enabled devices.

1. **Activate Bluetooth:** Press the **BT button** on the remote control. The projector will announce "Bluetooth On".
2. **Pairing:** On your device (e.g., smartphone), go to Bluetooth settings and search for "AC6923". Select it to pair. The projector will announce "Bluetooth is connected" upon successful pairing.
3. **Music Playback:** Once connected, play music from your device. Use the remote control's **Play/Pause**, **Previous Track**, **Next Track**, **Volume Up**, and **Volume Down** buttons to control playback.

Portable Camping LED Atmospheric Light

No matter where you are, there is always a way to see the Northern Lights.

Timer Function

Set the projector to automatically turn off after a specified period.

- Press the **1H** button on the remote for a 1-hour auto-off timer.
- Press the **2H** button on the remote for a 2-hour auto-off timer.

- To cancel the timer, press the **Timer Off** button (often labeled as a clock icon with a cross). The device also has a default 4-hour auto-off if no timer is set.

MAINTENANCE

- **Cleaning:** Wipe the projector's surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Solution
Projector does not turn on.	Ensure the USB-C cable is securely connected to both the projector and a working power source. Verify the power source is active.
Remote control is not working.	Check if the AAA batteries are inserted correctly and are not depleted. Replace batteries if necessary. Ensure there are no obstructions between the remote and the projector.
No projection or dim projection.	Adjust the brightness settings using the remote. Ensure the projection lens is clean and unobstructed. Verify the room is sufficiently dark for optimal projection.
Bluetooth cannot connect.	Ensure Bluetooth is activated on the projector (press BT button on remote) and on your device. Make sure your device is within range (approx. 9.8ft / 3m). Try restarting both the projector and your Bluetooth device.
Bluetooth connection drops or announces "Bluetooth On" repeatedly.	This may indicate interference or a temporary software issue. Try moving the projector closer to your device or away from other electronic devices. Power cycle the projector.

SPECIFICATIONS

Feature	Specification
Model Name	AC6923
Product Dimensions	3.5"D x 6.7"W x 4.5"H (8.89 cm x 17.02 cm x 11.43 cm)
Item Weight	1.1 pounds
Material	Plastic
Light Source Type	LED
Power Source	Corded Electric (USB-C)
Voltage	120 Volts
Control Method	Remote

Feature	Specification
Special Feature	Color Changing, Bluetooth Music Speaker, Timing Function
