Always assemble furniture on a flat, stable surface. Do not overload furniture; do not exceed the weight capacity of 800 lbs for corner chairs, 400 lbs for ottomans, and 170 lbs for the table. Use caution around sharp edges. Keep furniture away from direct

sunlight and extreme weather conditions to prevent warping or damage. Always use furniture as intended to prevent tip-over risks.

## SETUP AND ASSEMBLY

Assembly of the Tangkula Patio Furniture Set is designed to be straightforward. All necessary hardware and detailed instructions

are included in the packaging. Please follow the steps below for proper assembly:

1. Unpack all components and verify against the product components list to ensure all parts are present.
2. Lay out all hardware and identify each type of screw, bolt, and washer.
3. Begin assembling each furniture piece according to the provided detailed instruction manual.
4. **Important:** When attaching parts with screws, only hand-tighten all screws initially. Do not fully tighten any screws until all holes are aligned and all parts for that specific piece are loosely assembled. This allows for minor adjustments and prevents misalignment.
5. Once all parts are in place and aligned, gradually tighten all screws securely.
6. Attach cushions to the seating components. The ottoman cushions are designed with ties for better fixation.

## MAINTENANCE

To ensure the longevity and appearance of your Tangkula Patio Furniture Set, follow these maintenance guidelines:

- **Cleaning:** Wipe the furniture frames with a dry cloth to remove dust and debris. For deeper cleaning, use a mild soap solution and a soft brush, then rinse thoroughly and dry completely.
- **Cushion Care:** The cushion covers are removable and equipped with smooth zippers for easy cleaning. Follow the care instructions on the cushion tags. It is recommended to store cushions indoors during inclement weather or prolonged periods of non-use to prevent fading and mildew.
- **Weather Protection:** While the rattan is all-weather wicker, prolonged exposure to harsh elements can reduce its lifespan. Consider using a furniture cover during heavy rain, snow, or intense sunlight, or storing the set in a sheltered area during off-season.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.

## TROUBLESHOOTING

If you encounter any issues with your patio furniture set, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Holes do not align during assembly.	Screws were tightened too early.	Loosen all screws on the affected piece, align the holes, then re-tighten gradually. Ensure all parts are loosely fitted before final tightening.
Missing hardware or components.	Packaging error or lost during unpacking.	Carefully check all packaging materials. If parts are still missing, contact Tangkula customer service with your product model and a description of the missing items.
Cushions slide or do not stay in place.	Lack of proper fixation or movement during use.	Ensure ottoman cushions are secured using their integrated ties. For other cushions, consider adding non-slip mats or Velcro strips to the underside of the cushions and the furniture frame.
Furniture feels unstable or wobbly.	Loose fasteners or uneven surface.	Check and tighten all screws and bolts. Ensure the furniture is placed on a flat, level surface. Adjust anti-slip pads if necessary.
