Noise Control Modes

- **Active Noise Cancellation (ANC):** Reduces ambient noise by up to 40dB, ideal for focusing on audio in noisy environments.
- **Ambient Sound Mode:** Allows you to hear your surroundings while listening to audio, useful for situational awareness.
- **Normal Mode:** Standard audio playback without noise cancellation or ambient sound features.

EarFun Audio App

Download the EarFun Audio App to unlock additional features and customization options. The app allows you to switch between different EQ presets, customize touch controls, upgrade firmware, and more.

CHARGING AND BATTERY LIFE

The EarFun Air Pro 2 earbuds offer up to 7 hours of playtime on a single charge. The compact charging case extends the total listening time to 34 hours when Active Noise Cancellation is off. For quick power, a 10-minute charge provides 2 hours of listening.

The charging case supports both USB-C wired charging and Qi wireless charging, providing flexible power options.

MAINTENANCE

Regular cleaning of your earbuds is essential for optimal performance and hygiene. Ensure the charging contacts are clean to prevent charging failures or connection issues. Remove ear tips and clean any earwax or dust from the ear tip area to maintain clear audio volume.

TROUBLESHOOTING

Resetting Your Earbuds

If you experience connectivity issues or other malfunctions, performing a factory reset can often resolve the problem. Place both earbuds into the charging case, keep the case open, then press and hold the charging case button for at least 8 seconds until both earbuds flash purple. Delete the old connection from your Bluetooth device and reconnect.
