PACKAGE CONTENTS

Please check the package carefully to ensure all items are present:

- 1 x 1080P Projector
- 1 x Lens Cover
- 1 x 100-inch Projector Screen
- 1 x Power Cable
- 1 x AV Cable
- 1 x HDMI Cable
- 1 x User Manual
- 1 x Cleaning Kits
- 1 x Adjustable Screw (1/4 inches)
- 1 x Remote Control (Batteries not included)

PRODUCT OVERVIEW AND FEATURES

The CLOKOWE Mini Projector offers a range of features for an immersive viewing experience:

- **Native 1080P Resolution:** Delivers crisp and clear images.
- **8500 LUX Brightness:** Provides vibrant and bright projections.
- **Dual-Band WiFi (2.4G+5G):** Ensures stable and fast wireless screen mirroring.
- **Large Projection Size:** Supports screen sizes from 30 to 230 inches.
- **Multimedia Connectivity:** Equipped with USB and HDMI ports for various devices.
- **Built-in HiFi Stereo Speaker:** Offers clear audio without external speakers.
- **Silent Cooling System:** Designed for efficient heat dissipation with minimal noise.
- **Adjustable Focus and Keystone Correction:** Manual adjustments for optimal image clarity and shape.

ENJOY ANYTIME, ANYWHERE

Adjustable Projection
Size Up to **230"** Giant Screen

*Please equip outdoor generators for
outdoor use(Projector without battery)*

SETUP GUIDE

1. Placement and Power Connection

Place the projector on a stable, flat surface or mount it using the 1/4-inch screw hole on the bottom. Ensure there is adequate ventilation around the unit. Connect the power cable to the projector and then to a power outlet.

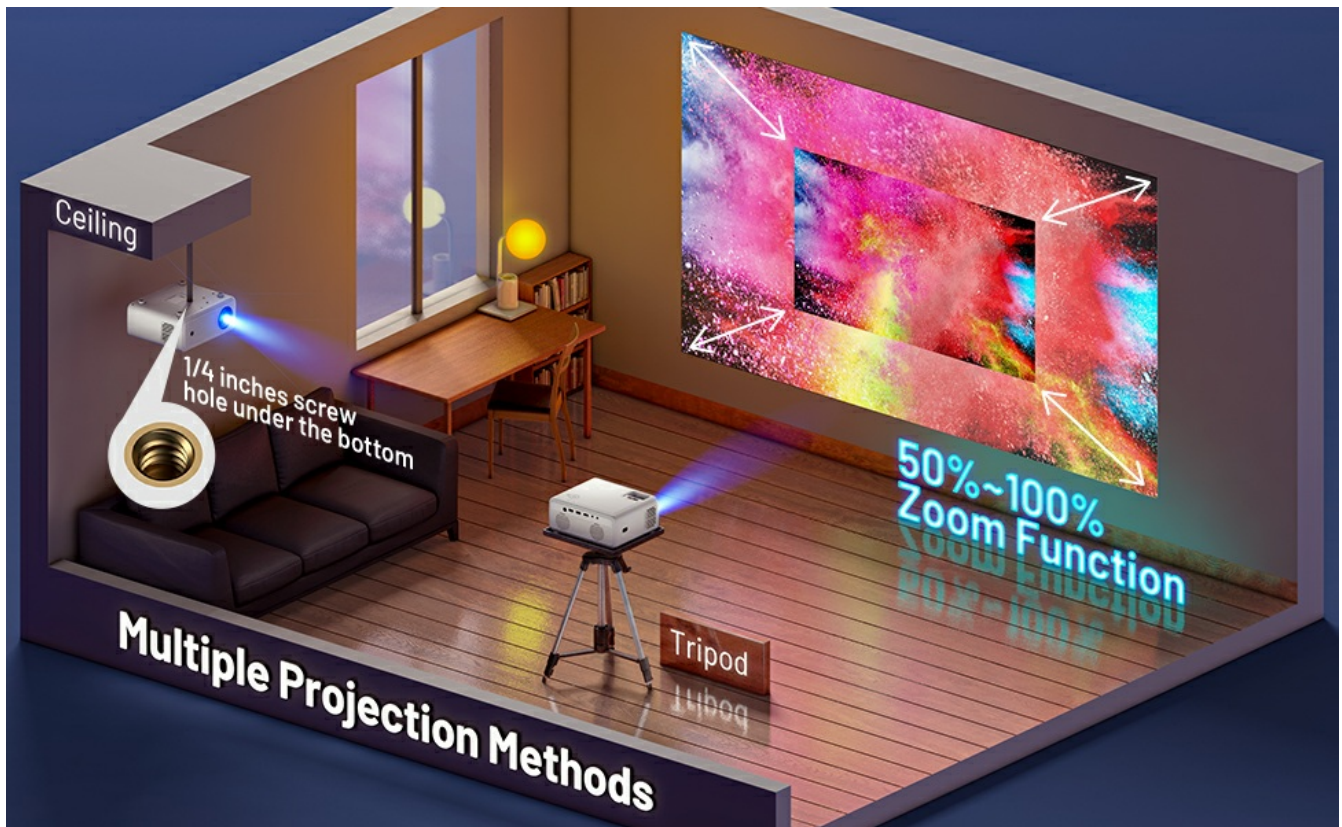

Image: Various projection methods for the CLOKOWE Mini Projector, including placement on a tripod and ceiling mounting, highlighting the 1/4-inch screw hole.

2. Focus and Keystone Adjustment

After powering on, adjust the focus ring on the top of the projector until the image is clear. If the image appears trapezoidal, use the keystone correction dial to square the image. The projector supports manual $\pm 15^\circ$ keystone correction.

3. Connecting Devices

The projector supports various input sources:

- **HDMI:** Connect laptops, PCs, TV sticks (Roku, Fire TV, Chromecast), gaming consoles (Xbox, PS4), and DVD players using an HDMI cable.
- **USB:** Plug in USB disks for direct media playback.
- **AV:** Use the included AV cable for older devices.
- **External Speakers:** Connect external speakers via the audio output port for enhanced sound.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button on the projector or the remote control to turn the unit on or off. The power indicator light will illuminate when the projector is active.

Menu Navigation

Use the arrow keys on the remote control or the projector's control panel to navigate through the on-screen menu. Press the "OK" or "Enter" button to confirm selections. The menu system is designed to be intuitive for easy access to settings.

Adjusting Projection Size

The projector features a zoom function that allows you to enlarge or shrink the projection size from 50% to 100% without moving the projector. Access this setting through the projector's menu.

230"

UNLIMITED LARGE SCREEN

18.3Ft / 230"

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

- **Lens Cleaning:** Use the provided cleaning kit or a soft, lint-free cloth to gently wipe the projector lens. Avoid abrasive materials or harsh chemicals.
- **Ventilation:** Ensure the projector's vents are not blocked to allow for proper airflow. The silent cooling system requires unobstructed vents to function effectively.
- **Storage:** When not in use, store the projector in a cool, dry place, away from direct sunlight and excessive dust. Use the lens cover to protect the lens.

TROUBLESHOOTING

If you encounter issues with your projector, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
No image/No signal	Incorrect input source selected; Loose cable connection; Device not powered on.	Ensure the correct input source (HDMI, USB, etc.) is selected. Check all cable connections. Power on the connected device.
Blurry image	Focus not adjusted; Incorrect keystone correction; Projector too close/far from screen.	Adjust the focus ring. Use keystone correction to square the image. Adjust projection distance.
No sound	Volume too low/muted; Audio cable not connected; External speakers not working.	Increase volume on projector and source device. Check audio cable connections. Test with different audio output or external speakers.
Wireless projection issues	Not connected to same WiFi; Incorrect mirroring steps; Network interference.	Ensure both devices are on the same 2.4G or 5G WiFi network. Follow the specific screen mirroring instructions for your device (iOS/Android). Try restarting both devices.
Projector not turning on	Power cable loose; Power outlet issue; Internal fault.	Check power cable connection. Try a different power outlet. If the issue persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Product Dimensions	7.5 x 6.3 x 3.3 inches
Item Weight	3.78 pounds
Display Resolution	1920 x 1080 (Native 1080P)
