VTech RM5752

VTech RM5752 Wi-Fi 1080p HD Video Monitor User Manual

Model: RM5752

1. INTRODUCTION

The VTech RM5752 Wi-Fi 1080p HD Video Monitor provides a secure and reliable way to monitor your baby. This system includes a 5-inch color screen parent unit and a 1080p HD camera unit, offering both local and remote viewing capabilities. Utilizing your home's wireless network, the monitor streams live video and audio, allowing you to stay connected whether you are at home or away via the MyVTech Baby 1080p app.

Key features include:

- 5-inch full color HD parent unit with 1080p HD camera.
- Automatic night vision for clear viewing in low light conditions.
- 2x local digital zoom and 10x remote digital zoom for detailed viewing.
- Remote viewing access and control via the free VTech app.
- Motion alerts and temperature sensor with alerts on both parent unit and app.
- 9 soothing sounds and lullabies to assist with sleep.
- Local and remote two-way talk functionality.

2. PACKAGE CONTENTS

3. GETTING STARTED

3.1 Powering On

1. Connect the small plug of the parent unit power adapter to the parent unit's power jack.
2. Connect the large plug of the parent unit power adapter to a wall outlet.
3. Press and hold the **POWER** button on the parent unit until the screen turns on.
4. Connect the small plug of the camera unit power adapter to the camera unit's power jack.
5. Connect the large plug of the camera unit power adapter to a wall outlet. The camera unit will power on automatically.

3.2 Camera Placement

Place the camera unit on a flat surface, such as a dresser or shelf, or mount it on a wall. Ensure the camera is positioned to provide a clear view of the desired area. The camera features an adjustable angle for optimal positioning.

- **Volume Control:** Adjust the listening volume using the **VOL -** and **VOL +** buttons.
- **Digital Zoom:** Press the **ZOOM** button to activate 2x local digital zoom.
- **Two-Way Talk:** Press and hold the **TALK** button to speak through the camera unit. Release to listen.
- **Lullabies:** Access and play 9 pre-set lullabies and 4 natural sounds through the menu.
- **Night Vision:** The camera automatically activates infrared night vision in low light conditions.
- **Temperature Sensor:** The parent unit displays the room temperature detected by the camera. Alerts can be set for temperature fluctuations.

4.2 Mobile App Integration (MyVTech Baby 1080p App)

For remote access and additional features, download the free MyVTech Baby 1080p app on your smartphone or tablet. This app allows you to:

- View live video and audio from anywhere with an internet connection.
- Control the camera's digital zoom (10x remote digital zoom).
- Receive motion alerts directly on your device.
- Engage in two-way talk with the camera unit.
- Monitor room temperature and receive alerts.

5. CARE AND MAINTENANCE

5.1 Cleaning the Monitor

To keep your VTech RM5752 monitor clean, wipe the surfaces of the parent unit and camera unit with a soft, damp cloth. Do not use cleaning sprays or liquid cleaners. Ensure the units are unplugged before cleaning.

5.2 Battery Care (Parent Unit)

The parent unit contains a rechargeable battery. To maximize battery life:

- Fully charge the battery before initial use.
- Avoid exposing the battery to extreme temperatures.
- If the unit will not be used for an extended period, remove the battery.

6. TROUBLESHOOTING

If you experience issues with your VTech RM5752 monitor, refer to the following common problems and solutions:

Problem	Solution
No link to camera / Disconnects frequently	Ensure both parent and camera units are within range of your Wi-Fi router. Check for obstructions. Restart both units and your Wi-Fi router. Verify your Wi-Fi network is stable.
No picture on parent unit	Check if the camera unit is powered on. Ensure the parent unit is charged and powered on. Re-pair the camera if necessary (refer to the full user manual for pairing instructions).
No sound or low sound	Increase the volume on the parent unit. Ensure the camera's microphone is not obstructed.
App not connecting or working	Ensure your smartphone/tablet has a stable internet connection. Verify the MyVTech Baby 1080p app is updated to the latest version. Restart the app and your device. Check your home Wi-Fi network settings.
Poor picture quality / Blurry image	Clean the camera lens. Ensure adequate lighting (night vision will activate in low light). Check for strong Wi-Fi signal strength.
